A NAZI PHILOSOPHER COMES FORTH If we thought for a moment that the letter of the rugged individualist printed in our letter hox today represented the sentiment of even ten per cent of the student body or twenty per cent of the forestry school we would discontinue publication and take out membership in an anarchist society or the Liberty League.

To those who would pooh-pooh the idea that Fascism can't happen here or who say murderous ideas have no place in American life, the letter has quite a great deal of pertinence. Here is the philosophy of Fascism in its finest flower. In Germany this noble scribe would be high in Nazi counsels, as ready for torturing Jews as for burning books. Here is the splendid Aryan philosophy of Nazi Germany right in our midst.

It is only a step from the "Hell Week" that this barbarous cretin defends to the terror by night in the. Ghettos and the intellectual centers of tortured Germany. Given a resolute hand of such spirits with a will to power and we'd have all the refinements of Nazi enlightenment. If you want to know where the potential Fascist storm troops are now you need only seek out this "gentleman" end his pals, defending their right to burn down buildings against "yellow Jewish hat men at any bonfire. Or you may find them in more civilized form defending the manly benefits of "Hell Week." Unfortunately, our Nazi friend has neglected to affix his name to his letter, so our readers will be denied the awesome privilege of identifying him on the campus.

The whole technique of identifying Jews with cravenness, rapacity and racial inferiority is a Nazi tenet, without the slightest basis in fact. This feeling is and has been present in America. It motivated the bedsheet lynchings of the Ku Klux Klan and the general mores which deny Jews residence in our tony suburbs and in the "best" clubs. Our friend and his rapidly crystallizing Nazi movement in America are advancing this idea in its crudest, most murderous form. And yet this writer heard from the lips of an enlightened and well-meaning member of the faculty the conviction that Jews were poor sports competitors and that he looks for an "O'" prefix on a name before he has faith in the athletic ability of the person. With this idiotic and dark prejudice widely adhered to already it only takes the impetus of homicidal halfwits like the letter writer and the growing despair of the middle class to establish it as a governmental philosophy.

The COLLEGIAN and Froth have been criticized for their constant hammering of Dirty Willie Hearst this year. We have done this because Willie the Rat is the articulated leader of American Fascism. Our moronic correspondent does not know that he and Willie are withers under their Arvan skins but they will ranidly liscover their affinity for each other. It is the busine of every civilized human being to swat these children of darknesss wherever they raise their horned heads. Our readers must realize that we do not attack Hearst because he is Hearst but because he and our gentle correspondent are the prophets of American Fascism.

The issues are coming out in the open more and more every day. Intelligent people must make the shoice between civilization and Fascism before the majority even realize the crisis,

Speculation as to the future activities of our scribe and his gang are in order. If he follows his professionil inclination out into the forests one is inclined to fear for the poor redwood trees. -J. T. D.

BY HIMSELF

Street Scene: For some time there have been rumors floating around about a cc-ed at the freshman women's dorm on the corner of West Beaver and South Burrowes who has been committing the nocturnal indiscretion of disrobing before a window at the front of the house. This information journeyed farther west and farther south until it reached the Beaver House

where Bill Balderston, Player, Thespian, swimmer, Peace Bond salesman. etc., heard it. Being a lad who favors empirical knowledge over the metaphysical vagaries of Scholasticism, he decided to investigate for himself. Several nights later on the way home he witnessed the rumored phenomenon.

He sauntered past the house on the other side of the street. Then he did an about-face and retraced his steps to the corner. The third time he was passing the house a boy and girl came out of the front door of the house.

The fellow looked at Bill and said: "Well, Balderston, don't you think it's about time

you went home?" Baldy looked at the fellow by the light of the

street lamp but didn't recognize him. Yes," he admitted, slowly moving away, "I suppose it is."

Postcard:

A postcard addressed to Lambda Chi Alpha arrived the other day with this message:

"Do you have a young gentleman living at your fraternity house named Richard H. Allen? If so, please tell him to get in touch with: (A Pittsburgh

address.") When Dick arrived home that afternoon the bros confronted him with it. The address was his home one, the handwriting his mother's.

+ + +

IF YOU WANT to get an idea of what the average State College residential street must have looked like twenty-five or thirty years ago, take a walk down East Beaver ave. beyond where it intersects Garner some afternoon,

This slice of town has been almost untouched by the crop of rooming and boarding houses, fraternities, or small stores that have mushroomed on all streets south of the campus. The old-fashioned frame houses are practically the same as they were when they were erected and the front porches decorated with wood which had been worked on the jig saw and lathe.

Pianoforte:

If you were at the concert Monday night you probably noticed that, according to the program youthful pianist Naegele used the Baldwin piano and cellist Salmond used the Steinway piano for accompaniment. Evidently Mr. Naegele won out because the Baldwin was used.

All through the program we were afraid that Mr. Salmond's artistic temperament might take offense at this slight and cause him to act injudiciously. We can just imagine Mr. Salmond challenging Mr. Naegele to a duel to the death to be fought in the "Letters to the Editor" section of the Musical Observer. + + +

WOMEN ARE PEACE-MINDED

. 2

Despite the fact that one co-ed at Miles Street dorm refused to buy a Peace Bond because her "boy friend" was a R. O. T. C. officer and "what he stood for, she stood for," the Pence Bond movement has proved definitely that Ponn State women are more peace-minded than the men.

Every woman's organization has bought bonds; as yet only fifteen fraternities have contributed and it is estimated that not more than twenty-five will. The women, comprising approximately one-fifth of the student body, have subscribed only twenty-five dollars less than the men.

This is not particularly surprising-women traditionally peace-minded. Jeanette Rankin, the first, woman member of Congress, was one of the few to vote against American participation in the World War. Women are one of the four principal groups advocating peace. Here again the old idea that every woman wants a man with a uniform seems proved to be only somebody's .idea.

Yet, it seems rather strange that the majority of Penn State men, apparently so opposed to military training, will contribute nothing for peace. Perhaps women are more farsighted after all.
