The four corners of the ring at Recreation Hall are in for a lot of action this week-end,

their promises. However, others are not regarding their promises so seriously. In fact, there is no doubt left that if they continue in their ways beer will be voted out of State College when it comes up for a vote four years from now.

It is definitely a shame that one or two men, by their ignoring their promises can ruin the businesses and pleasure of so many.

One of these places resembles the infamous "Gold Coast" of California on week-ends. It not only makes no or little attempt to check the ages of the persons it serves but it also serves to persons visibly intoxicated. Compared to the other beer establishments it is a disgrace.

In its campaign to retain the retail sale of beer in State College the COLLEGIAN promised the voters of State College that it would not hesitate to campaign against beer garden proprietors who failed to keep their promises. The COLLEGIAN considers this fair warning to owners of beer gardens that it intends to keep its promise unless they immediately clean up what is rapidly becoming an intolerable condition.
