

**70 Treated by College Hospital in February**

Seventy patients, the largest number for any month during the present school year, had been registered in the College hospital by Friday of last week. Colds were listed as the largest single cause of illness.

Eighteen students were dismissed from the hospital last week. Thirteen who were still confined were: Robert I. Shadle '38 and Helen C. Young '39, entered February 11. Edward L. Hoffmann jr. '36 and Luther C. Rahausser '39, entered February 19.

Others were Geraldine M. Corl '37, George F. Fox '37, Mary S. Swope '37, Helen L. Gorham '38, Shirley R. Helms '38, Wallace F. Custard '39, Arthur M. Longacre '39, and Jesse G. Halston '39, entered February 20, and Forest Preston '37, entered February

**Session on Low Cost Housing Planned Here**

A conference on low cost housing will be held here April 16 and 17 as a complement to the usual industrial conference in May, according to Prof. J. Burn Helme, of the department of architecture.

The department of architecture is arranging a housing exhibition to coincide with the conference. An attempt will be made to develop a practical point of view for the many small communities of the commonwealth.

Among the prominent persons who will present papers will be H. S. Buttenheim, editor of *American City*, N. H. Engle, assistant director, department of commerce, Washington, Ar-

**Architecture Courses To Have Guest Critic**

W. Pope Barney, supervisor of the federal subsistence housing project for the Virgin Islands, is the visiting critic for the department of architecture this semester. Prof. J. Burn Helme, acting head of the department, announced today.

Coincident with Barney's appointment came word that the department has added a new course to the curriculum in the nature of city planning. Professor Helme said that the course was designed to prepare architectural graduates for wider service in the smaller communities of the State.

**Luckies**  
a light smoke  
**OF RICH, RIPE-BODIED TOBACCO—"IT'S TOASTED"**

**Luckies are less acid**

Brand	Excess of Acidity (%)
LUCKY STRIKE	0
BRAND B	~120
BRAND C	~130
BRAND D	~140

**PROPER AGING**  
Tobacco in its natural state is harsh and strong. Though "cured" by the grower before sale, it is unsuited for use without further aging. During this aging period (which ranges in the case of Lucky Strike from 1½ to 3 years) important changes occur. These "Nature" changes result in the partial "smoothing out" of the original harsh qualities of the leaf. Our process of manufacture carries these improvements many steps further—as every Lucky Strike Cigarette exemplifies: A Light Smoke of rich, ripe-bodied tobacco.

**LUCKIES ARE LESS ACID!**  
Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.  
\*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS
