

# W. Virginia, With Olympic Threats, Meets State Here Tomorrow

## Lions Rated Even Chance For Victory; Redmond Out

Gedwillas, Distance Ace; Star Hurdlers, Head Mountaineers' Strong Track Squad.

By FRANK TITLOW  
With Jim Redmond out, "Chick" Werner rates the outcome of the dual track meet with West Virginia here tomorrow afternoon, as just about a toss-up. The meet will begin at 2:30 o'clock.

Redmond, whose injury is more in the nature of a cramp than a pulled muscle, was a sure placer in at least four events—the two hurdle races and the high and broad jumps.

The Mountaineers are bringing their Olympic prospect, Gedwillas, to run in the mile and two-mile for them. This man can hit around 4:20 for the mile, and then do the two-mile in 9:20 or better in the same afternoon.

Riskey has come close to record time in the high hurdles, shading fifteen seconds several times last year.

He, and a teammate who has been pressing him in practice, Moan, will run in both the high and low hurdles for the West Virginians.

Fifty seconds or better is usually registered by Hague in the quarter. He's also good for ten flat in the hundred. Over on the field, the Mountaineers have Baer, who can do twelve-six in the pole vault.

From this, it looks as though the Lions will have to step lively in the

## INTRAMURAL HIGHLIGHTS

By WOODY BIERLY

### VOLLEYBALL:

Phi Sigma Delta, Kappa Sigma, Beta Sigma Rho, Pi Kappa Alpha, and Tau Kappa Epsilon won the championships of the first five flights in the volleyball tournament. In the sixth flight, Phi Delta Theta took over Delta Upsilon in the game played Tuesday afternoon. This is the first defeat for the Delta Upsilon boys and since two defeats are necessary before a team is eliminated from the competition, another game has been arranged between Delta Upsilon and Phi Delta Theta to decide the championship of the sixth flight.

### MUSHBALL:

The mushball tournament was scheduled to get under way yesterday afternoon at 4:30 o'clock, when eight of the forty eight teams that have entered the competition, played the first games. Contests scheduled were Sigma Nu vs. Theta Kappa Phi and Alpha Tau Omega vs. Sigma Chi on the golf course diamond and Kappa Sigma vs. Alpha Zeta and Delta Theta Sigma vs. Phi Kappa on New Beaver field.

### SWIMMING:

Sigma Phi Alpha defeated the Pi Kappa Alpha swimmers in the swimming meet in the Glenland pool on Monday afternoon. The score was 38-10-19. The Dolphins took over the Sigma Alpha Epsilon team with a 37-10-20 score in the Wednesday afternoon encounter.

### MISCELLANEOUS:

All entries for the golf tournament must be in Miss Keller's office, Recreation Hall, before 12 o'clock tomorrow. Soccer entries must be reported at that office by 4 o'clock on Tuesday afternoon.

ways a great iron player. Albers is perhaps the coolest man on the squad, and Siegler has been practicing continuously with the varsity boys for two years. Johnny Bennett was heart-broken when his Cornell opponent ran down two birdies in a row on him in the Cornell match. He needs more experience. Stevenson, last week's medalist, can be counted on to provide a surprise of some sort before the three matches are run off.

### Wives on Equal Footing

Under the Swedish marriage law, wives are placed on an equal footing with husbands.

## Captain Oxreider Named New Lion Raquetteer Coach

### Nittany Men Favored To Take Match With Orange.

By STEVE CAMPBELL  
Capt. Raymond Oxreider, of the department of military science, was named coach of the Penn State tennis team to fill the vacancy created by the recent resignation of "Dink" Stover, Hugo Bezdek, director of athletics announced yesterday.

Oxreider will assume the position immediately. He has been acting as coach since the beginning of the season.

A Penn State victory was believed probable today as the Lions completed practice for tomorrow's match with Syracuse.

**Lion Victory Predicted.** All predictions, however, were based entirely on the Lion's overwhelming score of 9-0 over the Orange last year. This season's Syracuse team remains an unknown quantity, but it is usually impossible for a coach to build a winning combination out of an inferior team in a single year. An upset, however, is always possible, especially with a team like Syracuse which has always been famous for quick come-backs.

Paul Massey, who displayed such a superior brand of tennis last Saturday against Cornell, is scheduled to play No. 1 position tomorrow. Massey has been impressive all week in practice and should not experience too much trouble against his Orange opponent.

Dick Campman will probably occupy the second position and Capt. Jimmy will meet Syracuse's third man. Both men, who appeared seriously handicapped by lack of practice last week, have polished up their weak points and should win against Syracuse.

Chuck Patt is the only other man who is sure of his position. Freed, Morgan, Perry and Miller will vie for the two remaining places on the team.

**Doubles Teams Weak.** The doubles combinations which more than any other factor accounted for last week's defeat by Cornell, remain the weakest spots on the team. No teams have been definitely arranged and there was considerable possibility that there would be last-minute shifts in the line-up.

Massey and Paul Perry will continue to play as the first doubles combination under the present plan. Johnson and Patt and Smith and Campman will make up the other outfits but which would play in No. 2 position was not known.

According to all available dope, State should win by a score of 6-3 or better.

**Shakespeare's Vocabulary** Shakespeare had a vocabulary of 21,000 words, seven times that of the average person today.

## Dean Sackett Speaks To Engineering Groups

Dean Robert L. Sackett, of the School of Engineering, delivered the engineering convocation address at Syracuse University on Tuesday.

Dean Sackett spoke on "The Contribution of the Engineer to Social Welfare." He addressed the initiation dinner of Tau Beta Pi, national engineering honorary fraternity.

As vice president of the American Association of Mechanical Engineers,

Dean Sackett will attend the regional meeting of that group in Washington. He will give a short talk on "Production and Security."

**Had Many Microscopes.** The Dutch scientist Van Leeuwenhoek, who made remarkable microscopic studies almost 300 years ago, is said to have owned 246 microscopes.
