Forum To Discuss Democracy and Its Future

"The Future of Democracy" will be the topic for next Tuesday's forum which will be held in the Home Economics auditorium at 4 o'clock.

Prof. Edward R. Van Sant, of the department of economics and sociology, spoke on "Our Growing Federal Indebtedness" at last Tuesday's forum.

Debt Rose After War "Our federal debt," Professor Van Sant said, "is essentially emergency in character. It has arisen from the World War and from the depression."

Before the war, the speaker pointed out, the national debt approximated one billion dollars. Five years later, he continued, it had skyrocketed to twenty-six billions, and, by 1930, had sunk to sixteen billions.

The speaker pointed out several fallacies in the national debt controversy which are foisted on the public by political parties in condemnation of the policies of their opponents.

Change in System Likely The second fallacy Professor Van Sant discussed was the common wall: "Posterity will bear the burden."

Critics Praise Movie Version of Marc Connelly's 'Green Pastures'

When Marc Connelly sold the movie rights for his "Green Pastures" to Warner Brothers about a year ago for a reported price of \$100,000, some of the movie critics shook their heads in resignation, envisioning as the final product some typically colossal Hollywood production with gigantic sets, angel dance routines staged by Busby Berkeley, and Al Jolson portraying "De Lawd."

But the producers fooled almost everyone. First of all they engaged as many of the original cast as possible to play in the movie version. Next they signed Connelly to help direct the production with William Keighley. Finally they adhered as closely as possible to the original script, making only those changes which the new film medium made necessary.

Stage, for example, usually quite critical of movie offerings, says: "The film... has preserved most of the simplicity and appealing grandeur of the play and represents... an honest interpretation of a great story in another medium... 'Green Pastures' is a notable film achievement and an inspiring one."

Every effort will be made on the part of the Summer Sessions dance committee to put these affairs across. While a great deal of favorable comment has been received both by the members of the social committee and by the Collegian on these dances, the affairs to come will be even better.
