

Syracuse Boxing Meet Tomorrow Gives Lions Year's Hardest Test

Richter-Brown Battle Leads Impressive Individual Tilts Team Gains 3rd Win Over Pitt, 5 1/2-to-2 1/2

By JERRY WEINSTEIN Eastern boxing supremacy will be forecast tomorrow night when Penn State and Syracuse clash at Recreation hall at 7 o'clock.

The Eastern championship Lions, undefeated in three starts, will be facing their toughest opponents of the season and will receive their first real test.

While team supremacy will be the most important factor of the battle, individual fights will hold the spotlight.

Brown-Richter Outstanding The three-year ring rivalry of Jim Brown, of Syracuse, and State's Izzy Richter, plus the fact that the two are among the leading collegiate heavyweights of all-time, makes the final bout on tomorrow's program the feature.

In four encounters, Richter defeated Brown twice, lost once, and drew the fourth. All of the battles have been close, with Richter's ring experience and speed generally overcoming Brown's thirty-five pound weight advantage and punching power.

The Eastern champion will probably weigh 185 pounds, with Brown scaling 220.

Ritzie Meets Fink Captain Lou Ritzie will face Old Fink, Eastern and National champion, and Olympic representative, in the 165-pound battle.

A slugfest is promised in the 145-pound spot when Johnny Mastrella meets State's Eastern champion, Sammy Donato.

Syracuse Captain Art McGivern will have his hands full when he faces Billy Soose, Lion sophomore 165-pounder.

Eastern and National champion Frankie Goodman will face what is probably his toughest opponent of the season in Fred Zucaro.

The veteran Moon Mullins will be the Syracuse 115-pound representative and will provide Alex Sopchak's greatest test.

Goodman used his left jab to gain an easy decision over Herb Turner. After a great first round, Ritzie became the target for Ray Bombe's right; Lou piled up enough points with his jab to win.

Kociubinsky, hampered by a heavy chest cold, easily knocked Lupinacci around until he tired in the second and third stanzas.

With the exception of Donato, who defeated Pitt's Captain Linderman by a technical knockout in the second round of their 165-pound bout, the Lion boxers were far from impressive in their 5 1/2 to 2 1/2 win over the Panthers Tuesday in Pittsburgh.

Hoffman Expects New Record in Enrollment

Registrar William S. Hoffman estimated today that second semester registration totals will set a new college record for enrollment.

Debaters Leave For Two Meets

Weaver, DeCamp Compose Team For Discussion of Power To Regulate Hours

Dennis A. Weaver '39 and Ralph N. DeCamp '37, accompanied by Harold P. Zelko, of the division of speech, left today for two debates in Western Pennsylvania.

In conjunction with this split debate, a shift of opinion ballot will be conducted in order to see how many members of the audience are influenced by the discussion.

The Freshman Commission of the P.S.C.A. and the forensics council will conduct a debate here on March 2.

The question is "Resolved: That college graduates earning \$1,500 a year should be married before 25."

Mac Hall Holds Dance A semi-formal dance will be held at McAllister hall February 19.

The four undergraduate centers are located at DuBois, Fayette, Hamilton, and Schuylkill.

With the exception of Donato, who defeated Pitt's Captain Linderman by a technical knockout in the second round of their 165-pound bout, the Lion boxers were far from impressive in their 5 1/2 to 2 1/2 win over the Panthers Tuesday in Pittsburgh.

Real Campus Spirit Permeates College Undergraduate Centers

The establishment of the extension undergraduate centers had one aim—to be helpful in meeting an urgent need. They educate students, not as "feeders" for Penn State, but as educational services in cooperation with other colleges of the nation.

The four undergraduate centers are located at DuBois, Fayette, Hamilton, and Schuylkill.

Two publications have been edited at the centers—The Due at DuBois and The Schuylkill Collegian at Schuylkill.

Universities throughout the nation have accepted the students as "transfers" from these centers.

Interpretation of Interfraternity Council's new code in regard to fraternity hell weeks, was obtained in an interview with George M. Hacker '37, council president, today.

The code was passed by the council and approved by the Senate Committee on Student Welfare last spring.

The code that has been distributed to all fraternity houses embodies six prohibitive measures in regard to hell week practices.

Under the agreement hell week is to be abolished. The six provisions are: what the council interprets to be hell week.

Missions and errands during that period are prohibited. "This covers such things as sending pledges to Mac hall and cemeteries," Hacker explained.

Prohibiting padding was to be interpreted as padding specifically inflicted at a special time.

Conviction of a violation on any of these counts will result in a suspension of social privileges and the forfeiting of the \$50 bond placed during rushing season.

A committee composed of Hacker, John F. Samuel '37, Walter S. Wiggins '37, Frank A. Osterlund '37, and Alvin S. Newmeyer '37, has been selected to judge possible offenders.

Any informal initiation prior to formal initiation must be carried out within the bounds of the fraternity house property, Hacker emphasized.

The code says that any educational program of study shall not be regarded as a hell week practice.

Nor does the code prohibit special house duties, such as window cleaning and work within the house.

"This code will be generally in force for the first time since its passage during the next few weeks," Hacker said, "as most fraternities initiate shortly after the beginning of the second semester."

Co-eds' Dreams To Come True; Dorm Plans Nearing Completion

It will be a virtual hotel, this new women's dormitory that will be completed in time for the fall session of 1938.

A three-story affair of early American architecture, it will contain a telephone in each room. By having this service, it is hoped that confusion during study hours so rampant in the present dorms because of the limited phone facilities will be eliminated.

Landscaping for the dormitory will not be finished until some time after the actual building. This will make it unnecessary to disturb the apple tree experiment off the north end of Holmes field.

What will present a serious problem is providing adequate walks to bring the women over to the campus. They will be planned later, but plans are new to improve the same conditions for McAllister hall as well.

The absence of a walk on the south side of center drive from Schwab auditorium to this dormitory will be remedied by building one there.
