Boxers Pick Sam Donato '38 Captain

Succeeds Ritzie; Also Co-Leader of Lion Grid Team

Handler Named Honor Head of Cub Mitmen

Sam J. Donato '38 was elected captain of the 1938 boxing team at a meeting of the squad Friday. Donato succeeds Louis J. Ritzie '37.

Donato, who is co-captain-elect of the Lion football team, has been one of the outstanding athletes here. He started his freshman year as regular halfback on the yearling gridiron team and was holding down the regular blocking position as a sophomore when an injury put him out for most of the season.

Last year, Donato played a major portion of each game at the right halfback post, and despite his size, managed to give excellent support to the Penn State ball-carriers.

Held Championship

After a successful season with the freshmen boxers two years ago, Sammy went on to win the Eastern welterweight championship as a sophomore. He was undefeated until the final round of the National championship, when he dropped a close decision to Farrar, of Duke, and was awarded second place.

Throughout the past season, Donato continued his victories, gaining recognition as a sportsman-like boxer against inferior foes. He relinquished his 145-pound title to Johnny Mastrella, of Syracuse, in a close fight.

Along with Tommy Slusser, who is now varsity football trainer and freshman boxing coach, Donato is the only Penn State athlete to hold championships in both football and boxing.

Handler Cub Leader

Nathaniel J. Handler '40 was chosen honorary captain of the freshman boxers at the same meeting. Handler, who fought heavyweight, was called by Coaches Leo Houck, of the varsity, and Slusser, the "most improved boxer of the season." In two bouts, Handler scored a knockout and a decision victory. His first win gave the Lion freshmen a tie with Bucknell and his second gave the Nittany Cubs a victory over Pitt.

Dread Phosgene Gas Causes Riot Cry In Pond Lab

Shortly after 10 o'clock Friday morning, the dramatic cry of "Phosgene's loose, phosgene's loose, get out of the building!" echoed through the halls and labs of Pond laboratory. The hundred or so odd students in the building quickly began throwing wearing apparel out the windows and rushing for the exits. Within a few minutes all were out with no casualties reported.

The explanation, according to Dr. Grover C. Chandler, of the School of Chemistry and Physics, was that an old cylinder of the war gas had been upset. A corroded valve was blamed for the gas attack which disrupted the quiet morning's work. Two men, donning gas masks, secured the broken container, brought it outside to a place where the remainder could be released without damage.

No one had known of the presence of the phosgene till two weeks ago, the cylinder being one of those secured after the Armistice. Formerly it had been stored in the Chemistry Amphitheatre. An order to destroy the gas had been given some time ago but was overlooked.

The building was chemically treated shortly after the excitement but classes were dismissed until Saturday morning for fear of pockets that might have remained in the lower part of the laboratory.

Senior Class To Designate Gift Tonight

Chimes, Murals, Cabin, Telescope, Books Suggested

Over \$4,500 Available To Finance Donation

A meeting of the senior class will be held tonight at 7:30 o'clock in Schwab auditorium to decide the gifts to be given by the class to the College, according to Frank A. Osterlund '37, president. The list of gifts suggested will be presented and the group will vote upon them. All seniors are urged to attend the meeting, which will be a short one.

According to Robert E. Morini '37, chairman of the interclass finance committee, the funds of the senior class are estimated at \$1,196.40. This sum was reached when a profit of \$793.90 was realized from Senior Ball. The fund is planned to care for alumni activities of the class while the excess damage fee is expected to be available for the class memorial.

Five suitable gifts have been listed for the consideration of the class with the donation of the chimes as the most popular. Others suggested are: a telescope which would be a scale model of the 200-inch Mt. Wilson instrument; a mountain recreational cabin to take care of 60 to 80 students; murals for the lobby of the Mineral Industries building; and an endowment for books or furniture to be bought for the new library, when built.

The chimes are the most popular with members of the class, according to Charles A. Hungerford '37, in charge of selecting nominations for the gift. Over \$4,500 will be available to finance the proposed gift to the College. The selection of the gift will be decided on the basis of its benefit to the College and the students.

Dr. Elwood C. Davis, of the School of Physical Education and Athletics, suggested the mountain cottage as both fraternity and non-fraternity men would be permitted to use it. He also suggested tennis courts and a field which visiting teams could make use of for practice. Dean Edward Steidle, of the School of Mineral Industries, proposed lighting fixtures for the show cases in the building and murals for the main lobby.

Hyslop To Give Lecture Tonight

3rd Liberal Arts Presentation Features Illustrated Talk On Goya of Spain

An illustrated lecture on Goya, the Mirror of Spain, will be conducted by Francis E. Hyslop, jr., of the department of architecture, in the Home Economics auditorium at 7 o'clock tonight. It is the third in the series of Liberal Arts lectures to be given this semester.

Representative paintings, drawings, and prints by Goya, famous Spanish painter, will be shown during the discussion. "The variety of Goya's work in subject treatment is probably greater than that of any other Spanish painter," said Mr. Hyslop. "Goya's 'Disaster of War,' a series of prints based on the French invasion of Spain early in the nineteenth century, is as pertinent today—especially in view of the present Italian invasion—as it was when it was first executed more than a century ago."

The presentation of Spanish topics for the lectures were selected by the Liberal Arts committee because "Spain seemed at this time a logical subject for consideration."
