Extension To Offer 2 Insurance Courses

Two courses in insurance, presenting the principles of the profession to those who wish to become fire and casualty insurance agents, will be offered by the extension services of the College, according to J. Orvis Keller, assistant to the president.

The state insurance department has announced that the presentation of a certificate awarded by the College after the completion of the courses will be accepted as meeting the educational requirements for an insurance agent's license.

DEAN EDWARD STEIDLE

American Chemical Society Honors Marker

Prof. Russell E. Marker, of the School of Chemistry and Physics, who discovered a method of manufacturing the female sex hormone theelin, has been invited to present a paper at the American Chemical Society's symposium at Richmond, Va.,

next December. Members of the division of organic chemistry, American Chemical Society, actually elect those to present papers by signifying their wishes on questionnaires sent to them.
