SABBATICAL LEAVE-WHAT NOW? THROUGHOUT THE CAMPUS this fall has been comment about the faculty and its abilities. Most of the students are of the opinion that it should be a lot better. It is true that there is much dead wood that must be weeded out. The original and basic solution can be found, however, in the salaries paid some of our more able instructors.

Nothing can bring this home more forcibly than the situation that may soon face the College if two men going on subbatical leave do not return. Dr. Elword C. Davis, of the School of Physical Education and Athletics, and Dr. Bruce V. Moore, head of the department of education and psychology, are two outstanding examples of leaders in their field. They go on sabbatical leave this semester. Will they return? No one knows.

Men the like of Dr. Davis and Dr. Moore are ones who should stud an educational institution such as ours. They are able, energetic, and progressive. Both have rendered distinguished service. Dr. Davis administrated the School of Physical Education and Athletics in the interim between Bezdek and Schott. He was successful in raising physical education salaries because he fought for his school. Dr. Moore is nationally known for his psychological experiments.

It seems queer that educators must fight to be paid here. It throws some light on the reason why the faculty does not satisfy the student body. It shows why there are some notable deadheads on the faculty. It illustrates clearly that men are secured to fit price scales, instead of salaries' being adjusted to the man. Last year in the School of Liberal Arts, Dr. Waller left the department of sociology because he was not being paid. His leaving was a great loss to the College. Throughout all the schools can be found similar instances. The good men leave the faculty here because they can secure better offers in numerous other educational institutions and in industry. The faculty instead of growing in prestige appears to be declining. Good, men continually go.

It seems reasonable from an educational standpoint that higher salaries for able men would do much to raise scholastic standards. It would do wonders in building prestige. When the progressive, aggressive men of the faculty

are being paid respectably, it is time then to cast off inferior material that is the cause of so much student dissatisfaction.

It is a problem for the administration to solve if the

THE PENN STATE COLLEGIAN **OLD MANIA**

After All These Years: Chuck Campbell breathed a sigh of relief when he handed in his Journalism 16 final. The course had

been his chief worry of the semester. Passing the paper into the hands of Lou Bell, prof, Chuck said he couldn't understand why that course should be required for students majoring in adver-

tising. Bell looked at him and with a short smile said, "It

* * *

isn't."

We're Sorry: Jeanne Walker has a knack of crashing this colunn, despite our efforts to keep her name out of print. After telling everyone of the cards she received signed "the mystery man," Jeanne deposits them in ooks to add impetus to her publicity campaign.

The last to be discovered was one found in a library book by Jake Jaqueth, fifth assistant and stooge to Willie P. Lewis, library custodian. P.S.: The Maniac's latest clue in attempting to

solve the mystery indicates that she is sending the cards. * * *

Senator's Suckers:

When Shimmy Szymczak started to practice teach Altoona two months ago, he hoped his hoys and

girls would bring not apples, but cigars. Last week, the final day, the kids didn't forget the senator. After giving his farewell speech, dripping with the tears from his eyes, the kids came through, giving the senator a gift. Unwrapping the parcel the senator found not apples, not cigars, but 40 lolly-

Strike One:

Eddie Nichols, eng. comp' prof., is making a collegtion of slang terms employing expressions from the grand old game of baseball, such as "You had two strikes on you before you were born."

+ + +

Recently, one of the girls in his class timidly apached the collector and said, "Mr. Nichols, would this be one? The girl sang in a high-pitched voice." + + +

Fun With Finals:

Al Blair, theta xi, made the best of final exams last week. Taking a psychology blue book in the audi-torium, he turned over the hoard which served as a desk no less than three times, looking at the actually blank side underneath. And no less than three times did a sny stationed in the balcony come down to examine Blair's board.

Whacky likes to take finals. So, after not attending classes for the past two months in one of Pappy West's math courses, he decided to take the final. Meeting the instructor several days later, Blair quer-ied him concerning his grade.

"Minus two, what did you think?" West snapped at the theta xi, and then asked him how he got six of the seven problems correct.

Tripe and Trivia:

The Phi Kappa Sigs blame the Kappa Sigs for ashing several windows again, this time using mud balls instead of snow balls . . . Jean Townend and Evelyn Lapham would like to have their names in this column... Lynn Christy, former Froth mug, is teaching English in the College undergraduate center at DuBois this semester... Sol Miehoff is wonder-ing who the co-ed was that called him on the tele-phone and asked why he was a woman-hater... and Grover Cleveland Washabaugh, beta lodger, gave his fraternity pin to Peggy Shaffer of the theta house.

Sigma Phi Sigma was fined \$3 for not cleaning the snow from the walk recently... Prof. Merrill, lit. prof., had his lit and liquor mixed in class when he was talking about Floyd Collins and called him Tom .. Bill Stegmeir, former Maniac and LaVie editor is vacationing in Florida... The Maniac plans to start the traditional "Stinker Club," and requests nominations for a president. No one may vote for himself.

Jap Rule Debated Letter Box In Envoy's Notes 'o the Editor: To Freshman At the sports events here on the past week-ends, several students have been using flash bulbs to take pic-tures of the participants.

"I would say it is generally known ho is in actual control. You know the answer as well as I do."-Cheng ing T. Wang.

This was the telegram received by Daniel P. Oleksiw 341 in answer to his wire to the Chinese embassy in Washington asking whether a military ique or the Emperor was in supreme ontrol of the Japanese government

tures of the participants. I have no quarrels to pick with the candid camera fiends, but it seems to me that they should not be permitted the liberty of spoiling the enjoyment of the several thousand persons at-tending. That the lights are blind-ing and hurt, the spectators' eyes is evidenced by the hissing prevalent cach time one of them is flashed. These lights are also very discom-forting to the participants. Who can predict the time that in a boxing bout one of our men will be temporarily blinded and consequently knocked Elaborating his statement in an ac-companying letter, the Chinese envoy stated in part: "The signation is so one of our men will be temporarily blinded and consequently knocked oul? In a wrestling meet the lights rause the men to relax momentarily. This may be just what our opponent will need to pin our man. Not only may it make our men lose, but in re-versed circumstances, we may be de-clared unfair to our opponents and unsportsman-like. obvious in Japan that no detailed in-formation, as requested by you, is necessary. I wish, however, to point out to you that in contrast with the princtices in other democratic govern-ments in which the array and navy are subordinated to the control of the civilian leaders in the government, there are explicit provisions in the Japanese constitution that the Min-isters of War and Navy, who are al-ways utilitary and 'naval men, can go over the heads of the cubinet and ap-peat directly to the emperor." The letter also pointed out that frebyious in Japan that no detailed in-Insportsman-like. It is time that this evil is elimi-nated for the benefit of all.

The letter also pointed out that fre-quently in Japan when civilian lead-

College is to move forward scholastically with its in creased equipment and buildings. Students want, respect, and work for able instructors. They scorn those from whom they can learn nothing.

Liberal education hinges upon personalities and keen minds more than it does upon textbooks.

CONGRATULATIONS TO PLAYERS TO THE PENN STATE players for their "Idiot's Delight" prior to final exam week go congratulations and orchids. In the nearly 20 years that the Players have been entertaining local audiences they never ascended the heights as they did for the first amateur performance of Robert Sherwood's Broadway success. Player shows and Player direction have always been good. The two were combined admirably in "Idiot's Delight." The cast was able and convincing. It was large without annoying weaknesses. The performances of the three principals, Mr. Yanofsky, Miss Shtasel, and Mr. Doroshow were particularly sparkling and pleasing, Again congratulations,

Ì
