

Alpha Chi Sigma Wins Bridge Tourney; Phi Gams Runner-up

Alpha Chi Sigma copped the John Leo silver loving cup by winning the hotly-contested College duplicate bridge tourney finals at the Nittany Lion Inn Tuesday night. Phi Gamma Delta, Chi Phi, and Sigma Pi finished in that order.

Outclassing an original field of 44 teams, largest number of entries in the history of the tournament, the winning foursome of Bill Cleveland, Truman Sloat, Carl Carlson, and Lewis Fogg, obtained possession of the trophy presented by the manager of the Inn for the third consecutive year.

Three preliminary sessions reduced the starting array to 15 teams for the semi-finals. The four sones above reached the finals from this group, with Alpha Chi Sigma almost placing their second outfit. However, the Phi Gam entries edged them out by a narrow margin.

The tournament was conducted by Dr. Clyde H. Graves and James Q. A. McClure '38.

Here's several hands played as the champs. played them. Try your skill.

Machine For Film Reading Added To Library

To permit the reading of microfilm strips of books and periodicals, the College library has added an Argus reading machine to its equipment.

The machine, used primarily for reading duplicate copies in the form of film, eliminates the serious disturbances caused by the size and lack of durability of originals.

The innovation, which is gaining popularity, also brings with it the advantages of entrusting film copies to the mail instead of the more costly originals of books and periodicals.

Next in line for the library will be a microfilm camera to photograph copies of the rarer materials here for circulation.

H. E. Women on Trip

Twenty-three senior women in the institution administration division of the home economics course are on a field inspection trip in Philadelphia this week. The trip is taken each year under the direction of Prof. Phyllis K. Sprague, in charge of the department of institution administration.

6,000 Visit Third M. I. Open House

Six thousand visitors witnessed the many features of the third biennial Mineral Industries open house Tuesday night.

The Mount Joy meteorite, the only one found in Pennsylvania, was one of the museum features that interested the visitors. Also exhibited were fossil mastodon remains, tracks of giant salamanders, and a collection of rare and precious stones.

The tusk and teeth of a giant mastodon, found near Huntingdon in 1935 while a drainage ditch was being dug, were displayed in the west wing corridor of the building.

Mining Exhibit Shown

The anthracite mining exhibit in the museum attracted much attention. Built on a scale of five feet to one inch, it shows the details of how hard coal mining is carried on.

In the kiln room a potter shaped a vase of Jordan clay on a potter's wheel before the eyes of the audience. Dean Edward Steidle's collection of mineral industry art work also played a large part in the exhibit.

Hibshman Gets Office

Edward K. Hibshman, executive secretary of the alumni association, was elected president of the American Alumni Council at its twenty-fifth annual convention recently in Columbus, Ohio. The council is comprised of alumni secretaries, alumni fund-raising agents, and alumni magazine editors from colleges and universities in the United States and Canada.

Who Are Most Popular Here? Students To Determine In Vote

Inaugurating a new Penn State custom, the most popular man and woman senior on the campus will be chosen in a ballot to be conducted by The Bell, Jeanne M. Walker '39, editor, announced yesterday.

Those eligible for popularity honors must be active in either athletics, publications, or politics. Thus a letterman (or letterwoman) is qualified, as are those active in publications: Froth, Collegian, Farmer, Engineer, Bell La Vie, Handbook, Co-Editor, Beaver Field Pictorial. In the political field, anyone actively engaged is eligible, not necessarily class officers.

All Students Can Vote

Every student from freshman to senior is eligible to vote and there are no sex restrictions, i.e., men may vote for women and vice versa.

After a total of six—a man and woman from each respective activity—have been chosen, the vote will be narrowed down to the final two—the most popular man and woman senior on the campus.

Ballots, available today at Student Union, must be in before Easter vacation.

The nation's largest college wind tunnel is now being completed in the University of Minnesota laboratories.

CLASSIFIED

TYPEWRITERS—All makes expertly repaired portable and office machines for sale or rent. Dial 2342. Harry E. Mann 127 West Beaver Ave. 38 yr. G. D.
