

Elections To Sub-Councils Slated Friday

Each Department Will Choose Non-Voters; Need 1' Average

Nominations for school student council members will be held tomorrow, with elections Friday, Joseph A. Peel '39, new president of Student Council, announced today.

The sub-councils were established by John D. Kennon '38 in November, and it was decided to continue the plan after a large majority of the men students approved it in a vote on the class election ballot last month.

Three Classes Represented

The councils will consist of representatives from the sophomore, junior, and senior classes of each department of the school. One of the senior members will be elected president of the council and will preside at meetings. All members of school councils may sit in on meetings of Student Council, but get no vote.

Sophomores in the Lower Division of the Liberal Arts school will vote for representatives from the department they enter next year.

Different Departments Eligible

The following departments will have members in their school's student council:

Engineering: Architecture, Civil, Electrical, Industrial, and Mechanical. Nominations will be held in the Engineering library.

Liberal Arts: Commerce and Finance, Arts and Letters, and Journalism. Lower Division: Three will be elected at large for next year's sophomore class. Nominations will be held in Dean Stoddard's office.

Mineral Industries: Ceramics, Metallurgy, Fuel Technology, Mining, and Petroleum and Natural Gas. Nominations will be held in the Mineral Industries library.

Physical Education: They will be elected at large, one from each class. Nominations will be held in Dean Schott's office.

The nominees must have a (1) average, the same as any other class officer, to qualify. Lists of those nominated will be available in the first floor lounge of Old Main at the time of the final voting Friday.

MI Museum Gets 30,000 Year Old Mastodon Fossils

Fossil remains of a mastodon, the best and most complete ever found in Pennsylvania, have been added to the geological museum in the Mineral Industries building, it was announced yesterday.

The fossils, discovered by C. R. Cornelius, South Huntingdon, while digging a swamp drain near Sallito, Huntingdon county, consist of tusks, part of the jaw bone and three remarkably well preserved teeth. They are approximately 30,000 years old.

Prof. Clair W. Robinson, P. D. Krynine, and Frank M. Swartz, of the mineral industries staff, have completed an investigation of the bog where the fossils were found.

The hairy, elephant-like monster became mired in this swamp when the last ice sheet was melting in northern Pennsylvania, releasing torrents of water into the countryside further south. Other skeletons are believed buried there, and the College is contemplating further excavations.

Players Will Feature Battle Of Wits In 'Pride, Prejudice'

Battles of wits! They're going to take place thick and fast in June Austen's "Pride and Prejudice," Penn State Players' Mother's Day drama. Directed by Prof. Frank Neusbaum, the cast, entering the last lap of rigorous rehearsals, is perfecting the art of insinuation, accusation, and satire as woman goes against woman, man against man, mother versus daughter, and father against the whole crew of them. As soon as the curtain parts in Schwab auditorium at 8 o'clock this Friday and Saturday, there'll be a hot doing.

At Tappan '39 will make the boxing ring as he throws himself into the part of Mr. Collins, a "smooth" man of the nobility who's after Elizabeth Bennet (Ruth Stasal '41). But Collins is spurned, as Elizabeth turns her heart to her secretly-adored Darcy (Robert Robinson '41). As if this weren't enough, the remaining two sisters, Lydia (Bernice Hunn '41) and Jane (Shirley R. Helms '38) become entangled in love affairs with Wickham (George Bernstein '39) and Bingley (Joseph W. Dobbs '40).

The role of the ambitious mother will be handled by Natalie Schurman '41 while veteran Thomas S. Francis '39 returns as Mr. Bennet, one of the most difficult characterization assignments in the comedy.

Lady Catherine De Bourgh, obstruction to the Darcy-Elizabeth affair, will be played by Florence Marquardt '40, while another mild "villainess," Miss Bingley, is taken over by Ruth E. Wagner '40. Jane Eames '40 plays Lady Lucas; Lillian F. Marion '39 will be Charlotte Lucas; and Col. Fitzwilliam will be enacted by Walter W. St. Clair '40.

Deferred Fee Applications Are Available

Parents Must Fill Out Forms, Send Them In By Aug. 20

Applications for deferment of next semester's fees are now available at the bursar's office, Bursar Russell E. Clark announced yesterday.

Standard forms of application for deferment must be properly filled out and "mailed to the office of the bursar by the parents or guardians involved" not later than August 20, 1938.

Any applications received subsequent to the specified date will be returned to the applicant without approval, in which event the student will be required to pay the total amount of his charges at the time of registration as specified in the College catalogue.

Enforce Five-Dollar Fine

The assessment of a five-dollar fine will be enforced again this year on those students who fail to apply on or before this date, and who are still desirous of obtaining the deferment privileges.

"Those who wish to have statements mailed to parents, trust companies, guardians, or other persons or groups," the bursar's announcement reads, "will be required to file the standard form of application on or before August 20.

They, in turn, are also given the privilege to decide whether they want to make full settlement of the semester fees immediately upon receipt of the statement from the College or to apply beforehand for deferment and pay by means of the three-payment plan.

Under the payment plan, the parents must specify the exact amounts they agree to pay "on or before October 15, 1938" and "on or before November 15, 1938." The difference between the amount deferred and the total amount of the fees must be paid at the time of registration.

No student, under any circumstances, will be allowed to defer more than 60 per cent of his total fees. As usual, deferments granted to present students will depend on the College record of the applicant's established credit responsibility.

Holders of State scholarships will be "required to follow regular deferment procedure if they contemplate deferment on the basis of that scholarship."

Man By Nature Is Dishonest—Miller

National Policy Officer Says Individualistic Attitude Cannot Last Long

"Man is not naturally honest," declared Francis P. Miller, secretary of the National Policy Committee, Fairfax, Va., in his chapel sermon Sunday on "Christian Virtues in Modern Civilization."

Dr. Miller named honesty, compassion, and character as the Christian virtues, and declared none of them were natural or characteristic of human society, but acquired.

"Vast sections of modern civilization are regarding these so-called Christian virtues as vices," said the speaker. "We will wake up some morning to find these qualities nothing but words, and society guided by the antithesis of them."

He went on to say that a purely individualistic attitude cannot long survive. Honesty, compassion, and charity must be attitudes toward society as well as individual and personal feelings, according to him.

In conclusion, Dr. Miller said that these virtues are acquired from moral soil and that this moral soil is the product of Christian faith.
