Football Plight

Launching The 'Objective Analysis'

- Editorıal -

By A. WILLIAM ENGEL, JR., Editor

FAIR PLAY, as in any sport, is a fundamental requisite in any two-fisted editorial attack which may appear in this or other newspapers against an individual or group of in dividuáls.

That the present football situation was unjustly at tacked by the Collegian in its last issue in as bombastic a manner as could be utilized seems to be the opinion of many That such an outburst definitely was backed by student opinion seems to be the belief of equally as many.

Whether the tactics used were ethical; whether the time to strike was psychologically set; whether the immediate outcome would be good or bad-all are matters of fervent * * * *

IF THE CONTENT of Between The Lions was taken as a personal affront it was thoroughly misinterpreted. The article was directed at a machine—a machine which did not merely fail to produce in a single attempt, but which has sputtered periodically over a span of nine years.

Any machine which is running smoothly is certainly no in need of repair. Yet, if a sudden breakdown occurs in the machine, all hands endeavor to readjust.

Such has been the undentable case of Penn State's 1939 football machine-twice victorious and running smoothly. but, in its third attempt, pitifully shattered in an unbelievable breakdown.

NEVERTHELESS, it is in the interest of fairness and a realization that facts carry more weight than words that the Collegian launches an unprejudiced "objective analysis' of Penn State's football plight.

The Collegian assumes that considerably more is the matter with football here than the "inbred" coaching system. The problem thus concerns (1) the "intangibles," (2) the material, (3) the facilities (equipment, etc.), and (4)

ITSIS WITH the "intangibles" that the Collegian is first confronted. Such may be prompted by psychological factors, by morale, or by numerous other vague occurrences

How can one explain Penn State's "up and down" season last year—a season which was interspersed by disheartening losses to inferior teams and spectacular upsets over major opponents? That is an "intangible."

True, it may be just a spark which ignites these 11 players. And this same spark may appear again this season against Syracuse tomorrow or against any of the Lion's temaining major opponents.

The "intangible" is a dark horse on any football battlefield. This College eleven is not alone in its tussle with the impalpable. Apparently, the material, or, the facilities, or the coaching have more to do with the Penn State football
