

## 30 Coed Groups Queried For Point System Data

### Junior Senators To Head Administration of Plan

Over 30 women's organizations have been interviewed by a WSGA committee to gather information concerning the point system, Anne M. Borton '42, chairman, announced yesterday.

The system, approved by a vote of 437 to 86 by women students last spring, will operate as soon as data is completed. Administration of the system will be carried out by the two junior senators.

Designed to apportion offices among women students, the system will be scaled according to responsibility of office and time required to fulfill its duties. It will help assure that each organization get officers with concentrated interests and will protect individuals from the burden of more extra-curricular activities than are safe for studies and health.

Included in the survey information are: Frequency of meetings; length of meetings; approximate number of hours required for each office; if officer automatically becomes a member of other organizations, which ones, and how much time is required by each; if members are put on committees very often; activities the organization sponsors and amount of time required for them; general duties of officers; and type of organization.

A WSGA House of Representatives survey last spring revealed that only 352 of the 1,100 Penn State women participated in outside activities and that at least 25 of these carried more than they could handle efficiently.

In addition to Miss Borton, junior senator, the committee includes Elinor L. Weaver '41, WSGA president; Betty M. Martin '42, WSGA vice-president; and Mildred M. Taylor '42, junior senator.

## WOMEN IN SPORTS

Coeds will have an opportunity to show their favorite BMOCs just how to ride a bike, pitch ringers, shoot arrows, serve aces, and make holes in one on Co-Recreation Day Sunday.

Feeling the need for combined men and women's recreational activities, WRA's activity board made plans for this first Co-Rec Day last spring. With Mary G. Proctor '41 as chairman, all club presidents have been instrumental in planning the activities.

Events will include a bicycle breakfast hike to the WRA Cabin starting from Metzger's at 7 a.m. and returning by 10 a.m. A charge of 50 cents will be made for bicycles, and 15 cents for food. From 2 to 4 p.m. there will be contests in archery, badminton, golf, horseshoe pitching, ping pong, tennis, and volleyball all centering about Rec Hall.

The committee feels confident that such a program is attractive enough to warrant large participation.

## We, The Women— Pan-Hel Plays A Part In Promoting Unity

AN ERRONEOUS NOTION among freshmen and transfers that sorority membership is a "must" on this campus seems to have cropped up this year more than ever before.

Already, women who know they cannot afford sororities are confused in believing that without sorority backing they can never achieve success in campus activities and social life.

We have always prided ourselves on keeping politics out of women's activities here. We have encouraged and rewarded individual effort. Our positions are filled with women who have been selected solely for their merit and without regard for sorority affiliation.

What better evidence that no breach exists between sorority and non-sorority women is there than the Panhellenic tea today? Panhellenic Council is sincere in extending an invitation to all new students—regardless of any intention to "go sorority." This tea is an organized get-together intended to foster friendly relationships among freshmen, transfers, and sorority women; and everyone is urged to come. Affiliated women will not wear their pins, and no one will segregate into groups.

New students will have an opportunity to meet Greek women and judge them at face value. They should keep in mind that sororities on this campus are a luxury—not a necessity.
