

We, The Women—

College Women And Democracy

ALL OVER THE U.S.A. college women are awakening to the gravity of the foreign situation and how it affects them. Not only are our men due to be registered in the first peacetime draft the country has seen, but war clouds threaten to plunge us off the deep end of the struggle.

We, the Women who represent the intelligentsia of our generation, are equipped to help avert the chaos of another war. We, the thinking women of America, can turn our thoughts to wider horizons and express our opinions on topics at home and abroad.

Other Penn State women have done their duty by building a student democracy on the campus and seeing that it was effectual. But WE Penn State women have greater services to render. Not only must we continue our College democracy, but we must also strengthen our country's government by clear and intelligent thinking.

In our efforts to seem modern and progressive, too many of us have looked to the Germany and Italy that were, compared them to the countries they now are, and concluded that totalitarian states have something after all.

But we have forgotten in our reasoning that women in dictated states serve only as childbearers. So, because we are women we should unite against the infiltration of undemocratic ideas which might take from us our freedom.

And because we are American women we should prove to the world through freedom of speech that pride in our government is more than a flag pinned on a red, white, and blue dress.

The respiration calorimeter is the only instrument of its kind in the United States.

Hetzel Approves

(Continued from page one)

Grant, Edward K. Hibshman, J. Orvis Keller, Fred F. Lininger, and Adrian O. Morse. Students: Frances E. Hohn and Frank R. Flynn.

HOW TO WATCH A FOOTBALL GAME

Do you watch the ball on kicks? Punts? Forward passes? (Experts say you should not!)

If your team is kicking from behind its own goal, do you watch your team? Or the opponents?

Are you always missing the referee's signals?

What player do coaches agree is most exciting to watch?

You'll get twice as much fun out of a football game if you let Referee William H. (Red) Friesell tell you where to park your eye from play to play. Get your copy of this week's Saturday Evening Post and turn to page 36.

ALSO—THE INTIMATE LIFE STORY OF WILL ROGERS—the human story of a great American and world idol, told by his first sweetheart, his wife and lifelong companion, Betty Blake Rogers. What was the secret of the thousands of friendships Will found time for in his busy life? Read *Uncle Clem's Boy*. First of eight installments this week... ALSO a dozen or more other features—short stories, serials, articles, cartoons.
