### Council Tries To Return Depot To College Ave.

#### Leitzell Gives Reasons For Present Stand

Borough Council attempted to re-establish the College Avenue bus stop by means of an ordinance which they passed last night by a four to two vote, after hearing statements by Burgess Wilbur F. Leitzell, and Richard J. Kernard of the State College Hotel.

Whether or not the ordinance will go into effect is up to Leitzell who has three alternatives in acting upon the bill: (1) sign the ordinance thus making it a law 10 days later; (2) veto it before the next meeting of council; (3) ignore it completely.

If Leitzell vetoes the ordinance, or refuses to take any action before the next council meeting, the bus stop can be established by a majority-plus-one vote of council.

During the meeting the measure was voted on twice, meeting with a 3-3 tie the first time. On the second vote, which was called for by a reconsideration motion by Leonard A. Doggett, Russell W. Adamitz changed his negative vote. President of council Russell E. Clark and Earl H. Houtz opposed the measure. H. L. Stuart was absent from the meeting.

Earlier in the meeting Leitzell reiterated his previous stand, stating that it was unreasonable for council to pass ordinances and then ask the burgess not to enforce them. The Burgess presented the position of Greyhound Lines in the matter, pointing out that certain parties in State College had told Greyhound that the ordinance prohibiting the College Avenue stop didn't mean anything.

"The whole thing was misrepresented to the Greyhound people."

### 'Honor System' For Penn State? Other Colleges Have Succeeded

The University of Virginia, a school of 2500 students, is one of several institutions that has set up and uses a system known as the "Honor System." Would it be possible to initiate such a system of trust with the student body at Penn State?

Although Penn State has a much larger enrollment, and many difficulties would naturally arise, there is some feeling on the campus that such a plan could be introduced here and worked successfully.

Just what does such an honor code include. As Lieut. P. W. Riddleberger, who has seen this set-up work perfectly at V.M.I. declared, "it should include only those things definitely connected with a student's honor, namely, cheating, stealing and lying." Riddleberger pointed out that

Included in the equipment are provisions to make 25 gallons of hot liquids such as coffee and soup and keep them hot six hours, and light lunches while the kitchen is traveling.
