We, The Women Defense Program And Kitty Foyle

White collar factories are headed toward boom days if the "thousands of women" whom Frances Perkins promises jobs due to the defense program get them. And Christopher Morley's "Kitty Foyle" becomes an unintentional forecast that this year's graduates will take their places behind typewriters, in cosmetic salons, and on swivel seats in the corner drugstores.

Now, just as Kitty Foyle shook up a snow storm in her crystal ball, so the defense program is shaking up plans of the Class of 1941. Present seniors seem confident of jobs in June and absent from the campus this year are pessimistic comments on occupational opportunities.

Madame Perkins assures us that next year there is no doubt that we shall awaken to an alarm at 7 o'clock, six days in the week, work until noon, gulp a sandwich and milkshake, work until 5 o'clock, and be too tired to do anything but sleep.

Lovely existence!
