

Draftees Offered Physical Course; Begins April 1

A physical fitness defense course to whip prospective conscriptees into good physical shape to withstand the rigors of their year in the draft has been announced by the School of Physical Education.

Any student, faculty member, or townsman may enroll in the course, which will start on April 1 and continue until May 23, and those interested must sign up at the Student Union office in Old Main before April 1.

The course will include exercise and body-building, close order drill, and lectures on first aid and care of military equipment. Lieut. Charles A. Prosser, assistant professor of military science and tactics, will take charge of the drill classes.

Classes will meet three hours a week, on days suitable to those taking the course, and will be held between 3 and 5 p. m. and 7 and 8 p. m. Free towels, lockers, and medical examinations will be given to those who have registered.

Glenn N. Thiel, assistant professor of physical education, is chairman of the group selected to supervise the training. Other members are Eugen C. Bischoff, associate professor of physical education, Lloyd M. Jones, professor of physical education, Charles M. Speidel, physical education instructor and wrestling coach, and Lieutenant Prosser.

The Draft

Answers Given To Student Questions

Editor's Note: The following questions were submitted by student draft registrants at second semester registration. Answers have been supplied by the College draft advisory committee, headed by Adrian O. Morse, assistant to the president in charge of resident instruction.

Question: Is there any occupational deferment for students in selected scientific courses?

Answer: In general, no. Individual students whose occupation is determined by the local board to be "necessary to the maintenance of the national health, safety or interest" may be deferred.

Q.: If students are called before graduating from college, what is their standing upon return to college?

A.: This situation would seem to be the same as that of a student who drops out of college for a year for some other reason.

Q.: If drafted, will we be able to start with the positions granted us on our ROTC certificates?

A.: No. All those called under Selective Service will begin as privates. It is expected that those who have had previous military training and are capable will be able to accept greater responsibility.

Q.: Does the fact that I have taken Civilian Pilot Training course help me get in the air service?

A.: It is our understanding that one who has completed the Civilian Pilot Training course is eligible to apply for an advanced course and that this leads to service in military aviation.

Q.: Will physical education majors be qualified as instructors in the Army?

A.: This will depend upon the individual and the need for such instructors.

Eight Steps Suggested For Student-Faculty Relations Committee

Hot On Drums

Ray McKinley, star drummer of Will Bradley's orchestra, will demonstrate his rating as "the drummer's drummer" when he performs here at Interfraternity Ball, April 4.

Bradley Promises Smooth Dancing

Although Will Bradley may be the boogie woogie jazz king, he definitely intends to make "Sweet Swing" the theme of his dancing music at Interfraternity Ball on April 4, according to a communication from Bradley yesterday, George L. Parrish '41 has announced.

The trombone-playing maestro, who spends his spare time composing string quartets, has received a varied musical education under such bandleaders as Andre Kostelanetz, Nat Shilkret, Raymond Paige, Freddie Rich, Red Nichols, Ray Noble, and Glenn Miller.

Drummer Ray McKinley, besides being classed as "America's Greatest Musical Drummer," sings all of Bradley's specialty solos. Six-foot Terry Allen and diminutive Lynn Gardner are the other vocalists.

Invitations will be priced at \$2.50, according to Parrish, and will be sold at Student Union from 10 a. m. to 5 p. m. on April 3 and 4. Booth rentals must be made by noon, April 2.

Miriam G. Mensch, a Bucknell University student, became the first entry in the IF import contest when she wrote to the committee, "It is a bigger thrill to a Bucknell coed to attend the IF Ball as compared to the sissy affairs here at Bucknell University, which is considered a social institution."

Carpenter Will Speak At LA Lecture Tonight

Dr. Clarence R. Carpenter, associate professor of psychology, will speak on "Non-Human Primate Behavior; Its Significance for the Understanding of Human Behavior" at the fifth Liberal Arts lecture in Room 10 Sparks at 7:30 o'clock tonight.

Structural differences between the highly developed apes and man, and the relation of brain development to behavior and modes of social adjustment on the non-primate scale will be the main topics presented by Dr. Carpenter.

Quick Action Follows Approval By Cabinet

Quick action, including the appointment of 14 student members and the suggestion of 8 "immediate activities," has followed All-College Cabinet's approval, Tuesday night, of a plan to establish a permanent committee on student-faculty relations.

As proposed by the PSCA, the committee will take a survey to determine what is now being done to better relations, will conduct a discussion forum, and will recommend action or take action itself.

The eight suggested activities are as follows:

1. Establish a community sing.
2. Expand the Fireside Sessions program.
3. Assist in planning coffee hours and open houses.
4. Establish a permanent hobby room.
5. Plan more student-faculty recreation days, such as were held last September.
6. Start a student-faculty program for living groups.
7. Establish a student-faculty intramural league.
8. Hold a student-faculty exchange day.

The committee in charge will consist of two students and one faculty member from each school. Faculty members will be named next week. Names of student members follow:

Harry W. Korb, Jr. '42 and Clarence E. Kunz '42, Agriculture; Vincent N. Hurd '41 and Robert B. Jeffrey '42, Chemistry and Physics; Jean L. Lininger '42 and Helen L. Mazur '42, Education; Walter N. Shambach '42 and Thomas C. Young '42, Engineering.

Mary G. Procter '42 and Charles H. Ridenour '43, Liberal Arts; John J. Raves '42 and Warren H. Williams '42, Mineral Industries; Katherine A. Loesch '42 and Paul C. Whitmoyer '41, Physical Education and Athletics.

Average Corrected

Lyle E. vonWeissenfluh '41 had an average of 3 in the School of Education last semester instead of 2.82 as previously reported.

Well-Liked Politicians Occupy Four Student Presidencies

Tossed up to student presidencies by the All-College elections last week were a football captain, an ace boxer, a Corner Room kid, and a fair-haired lad.

All widely known, they are about as well-liked as politicians can be among their fellow students.

Bob Baird, new All-College prexy, had the distinction of being the youngest CIO lodge president in the country when he headed the Clairton organization of the Steel Workers Organization Committee, Lodge 1557, before he came to college. He's a top-notch boxer and a varsity debater, besides being a dean's list student and a hat man.

The most thrilling moments in the 1940 football season were provided by Len Krouse, who succeeds himself as leader of the 1942 class, when he snatched a pass right from the midst of a group of Syracuse gridders and

Tribunal To Decide '45 Class Customs Tonight

Customs for next year's freshmen will be decided upon at Tribunal's meeting at 7:30 o'clock tonight in Room 302 Old Main, it was announced by W. Lewis Corbin '41, present head of Tribunal.

At the end of the meeting, Corbin will be finished as Tribunal's chairman, and Raymond E. Leffler '42, next year's chairman, will take over his duties. Other members on next year's Tribunal have not as yet been announced.

Riding Club Buys 4 Saddle Horses

Four horses purchased for the new riding club will arrive in State College tomorrow and be displayed by experienced riders in the Stock Judging Pavilion at 2 p. m. Saturday.

Purchased in Philadelphia, the horses have been approved by Dr. James F. Shigley, professor of veterinary science.

Designs for a barn to be erected on campus are being drawn up and will be considered by College authorities. If approved, the plans will be submitted to the executive committee of the Board of Trustees at their meeting March 28. Temporarily, club members have arranged for the horses to be kept in town stables.

Club membership for the remainder of the semester will be \$15. This entitles riders to two hour-and-a-half rides each week and three weekly instruction periods.

College Representatives Asked To Washington

WASHINGTON, D. C. Mar. 20 —(IWP)— The Pennsylvania State College will be invited next week to name representative students to participate in the 1941 Institute of Government in Washington, it was announced here today.

The National Institute of Public Affairs and the U. S. Office of Education, sponsors of the five-day institute to begin April 14, said 50 to 75 outstanding students are expected to participate in the program, which will include informal round-table discussions with leading government officials and visits to Congress and committee hearings.

IFC Dissatisfied With Penalties On House Dating

Apparently dissatisfied with the present method of meting out dating code penalties, members of Interfraternity Council last night set up a committee to confer with the IFC's Judiciary Committee on the problem of enforcement. Several proposed changes in next fall's rushing code were also discussed.

Although they agreed with the code itself, several members felt that it was unfair to have a whole fraternity suffer for the mistakes of a few in breaking the dating code.

Prof. Sheldon C. Tanner, IFC adviser, pointed out that if individual fraternities would punish their members breaking the code, it would eliminate much grief, and would be acceptable to IFC's Judiciary Committee.

H. Edward Wagner, head of IFC, appointed the following committee to work with the Judicial group on the problem of enforcement: William E. Fowler '41, chairman, Thomas G. Robinson '41, Robert B. Gammon '43, John R. McCracken '41, and Arthur H. Shapiro '42.

According to Thomas T. Ainsworth '41, head of the rushing code committee, the suggested rushing set-up is substantially the same as last fall's, that of a liberal rushing code. Under the proposed system summer rushing would end at 7 p. m., September 8, and a rushee may not be pledged until after 5:30 p. m., September 11. Rushing parties outside the borough are also prohibited.

Oldest Petroleum Still In Western Hemisphere Exhibited In MI Museum

The oldest relic of Pennsylvania oil refining, a still invented in 1854, will be placed on display in the museum of the School of Mineral Industries today after brief ceremonies.

This oldest petroleum refinery in the western hemisphere, invented by Samuel Kier, antedates by five years the more widely known accomplishment of Colonel Edwin L. Drake, who is credited with inventing the first well in the world drilled for oil.

The Kier invention, which until recent months was rusting and disused in a Salina brick plant, will be restored according to old records under the supervision of Dean Edward Steidle.

Along with Drake's development of a drilling method, the still made possible the billion-dollar industry underlying much of modern transportation and heating. To Kier and Drake must go the credit for obtaining oil directly from the earth rather than through the secondary materials, coal and oil, the sources utilized by most of their predecessors.

Books To Be Reprinted

Two books—"Machine Design," written by Prof. L. J. Bradford of the College and Prof. P. D. Eaton of Lafayette, and "Kinematics," written by Prof. G. L. Guillet of the College—will be reprinted this spring following a successful four-edition printing last fall.

Delta Sigs Entertain

Delta Sigma Phi entertained Alpha Omicron Pi at dinner last night.
