

Confab Shows WSGA Problems Aren't Grave

"One of the most valuable things about WSGA convention was that we realized our problems, in comparison, aren't as serious as those of other schools," declared Jean Babcock '42, WSGA president, speaking about the 10th conference of the Inter-collegiate Association of Women Students.

Miss Babcock and Margaret K. Sherman '43, WSGA vice-president, spent April 2-4 at Texas Technological College discussing problems of women students with representatives of colleges throughout the nation.

Miss Babcock pointed out that our problems are typical—hours, freshman and transfer orientation, and allotment of activities.

"WSGA will continue with the point system now being tabulated. At convention, we discovered that many colleges find it helpful and chief objections are poor administration and careless point allotment. We'll guard against these two faults."

WSGA will consider inviting 10 representatives of various campus groups to attend Senate meetings, a suggestion offered by the University of California.

"Our transfer and freshman orientation programs, Miss Babcock continued, "are similar to those at other colleges.

Also, few colleges permitted women students more lenient hours than Penn State."
