Cooperative Food Plan Is Successful At Oregon State

Twenty thousand dollars every year or an average of \$500 for each of the 41 fraternities and sororities is saved through the Cooperative 'Managers' Association on the Oregon State College campus. On the basis of contracts with local merchants. the Association sells groceries, meats, wood, house equipment. and furniture. Orders are telephoned to the Association's warehouse by the house caterer of cook, and goods purchased are put on a monthly bill, like a charge account system of a groc ery store.

By the contract basis, the As sociation is able to sell goods to fraternities on a wholesale standard. Retail prices are charged on monthly bills and at the end of each term, a refund on purchases is paid to each house.

The staple groceries, meats. equipment and furniture are stored in the Association's warehouse. House caterers order flowers, plumbing services, wood, milk, etc., at the local dealers' stores. Each fraternity's bill is sent from these merchants to the Association. Then at the first of each month, when the groceries, and supplies are issued to the houses, the Association adds the local merchants' bills on this statement.

The business is housed in a modern concrete warehouse. The members will attend the banquet main room is a warehouse in which the day's orders are assembled for delivery. This room has a platform for the truck drivers to load from. Named spaces are painted on the floor in which the goods for each house are stacked for easy delivery.

> Employees of the Association are a manager, assistant manager, accountant, butcher, secretary and 8 part-time students who act as delivery boys. Actual business transactions are entrusted to a board of directors three men and two women, who are elected each year by the house caterers.

Other services that the Association carries on are laundry collections, garbage hauling, and loans to fraternities making Strictly business-like relations are carried on between the fraternities and the Association Loans made to the houses carry the regular bank rate of interest

Under the laws of the Association all fraternity bills must be paid by the tenth of the month following purchase or an additional charge of 10 per cent of purchases is made.

Does it pay? By comparison, the average United States grocery has an annual operating cost Junior majors defeated fresh- of about 171/2 per cent of sales. 9.11 per cent of sales for the same period. But even more important is the annual saving of approximately \$20,000 of net profit which is divided among the fraternities according to the purchases they make.

The organization has proved to be a bond that brings all fraternities and sororities closer together. The Association has unquestionably proved that through? cooperation Oregon State fraternities and sororities may have excellent services and food witha saving in time and money.
