Collegian Honor Roll For 1940-41

Worthless without them.

Sixteen million dollars worth of buildings, 2,400 acres of Centre County soil, an annual income around five millions.

And all worthless without leaders to make it mean something, without leaders dedicated to making it a personality—Penn State.

Each year since 1939, Collegian has tried to honor those persons and those organizations which in the 12 months past have seemed to do most to forward the movement "For A Better Penn State" by doing more than their job required in serving the student body, the College, the state,

Thousands of men work in Penn State's name every day. All of them deserve some measure of recognition. Needless to say, Collegian can not mention all of them. Thus, to those most outstanding leaders who have come to Collegian's attention, a toast.
