Town Ordinance May Ban Riding Club Stables

Four horses may find themselves without a stable and a \$400 investment by the Riding club may become useless if an ordinance prohibiting horses in the Borough is enforced.

The owner of the town stables revealed yesterday that he may be compelled to remove his and the club's horses from the Borough.

The club has asked the College for a piece of land for stables which the club itself would erect, but no decision has been made yet. Members of the Board of Trustees will meet Friday and President Hetzel will submit plans to them.

WSGA has donated \$435 and WRA \$100 for the stable fund. Other campus organizations have indicated that financial support would be forthcoming.

A petition has been circulated by the club to sample student opinion on the matter and a large number of students are reported to have approved the club. Though 45 members now belong, the club expects to expand and purchase more horses.

Riding instructors who have volunteered their services are Cyrus E. French, assistant in animal nutrition; and John P. Wilgraduate students.
