### **Enrollment Total** Reaches 5,858

A pre-registration expectancy of a 10 per cent drop in "on-thecampus" enrollment was shattered yesterday afternoon when officials announced the total had reached 5.858 as compared with last year's 5.858 as compared with last year's October 12 figure of 6,433.

A number of students have to register which will boost the 90.7 per cent total of last year's mark even higher.
