

WSGA To Delay Drinking Action

WSGA Senate's action regarding All-College Cabinet's mixed drinking recommendation will be decided next week, according to Jean Babcock '42, WSGA president.

In view of WSGA's subordination to All-College Cabinet, the rule will probably be accepted. Miss Babcock stated that since the rule applies to all College coeds, town and Bellefonte women are included.

The Cabinet has provided that offending women be tried by WSGA Judicial and men by Tribunal. In severe cases a joint body, called a Cabinet-Judiciary, with men and women representation, will be formed by the Cabinet for settlement.

Enforcement of the rule will depend upon complete cooperation of all campus organizations in reporting offenders, according to Robert D. Baird '42, All-College president.

DEFINES ACTION—Jean Babcock '42 announced last night that WSGA Senate would take action next week on the mixed drinking regulation recommended by All-College Cabinet.

'All Aboard For Coeds' But 'Last Stop' For Imports

All aboard the coed home-bound express leaving on track State College about a quarter to five tomorrow. There's no time for a shine, and something could be finer than dinner in the diner and that's dinner in a fraternity house.

Imports will be here, there, and everywhere after the coed migration. And the question foremost in coed minds is "Why do they make out for big weekends and I don't?"

An answer to this perplexing problem may be ascertained by information revealed in an informal survey to ferret out reasons for importing over big weekends.

Results included the following alibis. 1. impresses fraternity brothers to have new glamor in the house 2. home town gals offer wider field of selection 3. couldn't get a date otherwise 4. tickles a man's ego to show someone around campus 5. variety's sake 6. coeds are yet unknown to freshman men 7. hang-overs from summer romances.

Then just to prove how the men questioned stood by their excuses another informal investigation was made to show percentages of imports at several fraternity houses. Approximate percentile were Alpha Tau Omega, Kappa Sigma, Tau Kappa Epsilon, Alpha Sigma Phi, and Phi Sigma Delta, all 75 per cent; Delta Chi, 55 per cent; Phi Sigma Kappa, 46 per cent; and Gamma Sigma Phi, 70 per cent.

Importing runs rampant for Fall houseparty, most men admit, but tends to dwindle off in the Spring after campus romances have had almost a six-month incubation period.

But it's not so bad as it may appear, for to quote a well-known BIMOC who prefer to remain incognito, "There are two kinds of women; those you import for Houseparty and those you marry."

We, The Women

Just What Is Coming Off?

Cabinet's blitzkrieg tactics regarding the drinking situation as well as the rule itself leave many stones unturned.

Perhaps there was a motive in obtaining regulation before Houseparty weekend, but where, precisely, is the difference? Wasn't chaperoned mixed drinking permitted in past years?

A rule, affecting such a large number of students, should not be blitzed through with short consideration. Representatives on Cabinet supposedly voice their groups' opinions. But did they have time to consult their societies and really gain a cross-section opinion?

This opinion, naturally, would have to be tempered with additional consideration for the name of the College. It seems that in this instance, "name of the College" sentiment was not diluted by complete student voice. Is this student government?

In passing such regulations, was the enforcement angle considered? Will those societies named as backers of the rule and who do not have representation on the Cabinet be forced to enforce it? Granted that if they didn't, it would mean non-cooperation with the government but that government is supposed to represent the voice of the people. They were not all represented.

What area is included in "surrounding communities?" And if there is a definite regulation barring them from out-of-town

places, consistency demands such ruling for establishments in State College.

Women students residing in town formerly have not been subject to government rulings since there was no effective means of punishment. They would come under the coed ruling but since they live at home, will they have to comply with the rule?

As the situation rests now, there are three rulings governing coed drinking—that passed by Cabinet, the recommendation passed by Cabinet, and that of WSGA. Supposedly, Cabinet action does not cover chaperoned mixed drinking parties; however, WSGA's rule states that coeds should not drink.

Omitting necessary stipulations in a rule designed to cover Houseparty and stating that further definition will be forth coming following government body meetings next week does not clarify the situation and is contradictory.

There are loopholes and upon what interpretations are the judicial bodies to base their judgment?

It is essential to have student drinking regulated but attempts at that regulation should not admit such inconsistencies.

College Lessens Marriage Chances

"Women who can toast bread without burning it and sew buttons on correctly have a better chance for marriage than those who can't," emphasized Dr. Clifford R. Adams, instructor in education and psychology, at a Pi Lambda Theta coffee hour last night.

Coeds lessen chances of marriage by coming to college since men tend to marry women with an I. Q. of eight points lower than their own, he pointed out. The average non-college woman usually marries at 24, while career-aspiring coeds seldom marry before 26 or 27. Non-coeds have a 9 to 1 chance of securing a husband because they have more time to "plan their attacks" and "make their catches." Also, more men marry "the girl back home," disproving the theory that colleges are matrimonial bureaus in disguise.

Another reason for a low marriage rate is low sex ratio in certain sections.

"In New England," Dr. Adams stated, "competition for husbands is terrific, but the worst place to look for a mate is New York City."

WOMEN IN SPORTS Army Cops Title

For the first time in four years, Army won the coveted 1941 hockey championship when they defeated Navy, 5-1, yesterday in the fourth game of a prolonged series.

Two games played last week resulted in ties, with Army winning Tuesday, 4-1.

Pauline Rugh, winning captain and left inner, maintained her high scoring record, as her short hard drives accounted for three Army goals. Anna Radle, Army forward, scored twice.

Although Navy forwards had several scoring opportunities, they succeeded in chalking up only one counter late in the game. The Navy attack was seriously hampered by the brilliant defense work of Army back Janet Holmes. Ann Drivas, right back, led Navy defense.

The line-up: Right wing—Cautman, A; Hooper, N; Right inner—Angle, A; Havertisck, N; center forward—Radle, A; Fitting, N; left inner—Rugh, A; Burk, N; left wing—McGee, A; Burwell, N; right half—Crossman, A; Brown, N; center half—Duffman, A; Gregory, N; left half—Cookerly, A; Weldy, N; right back—Judge, A; Drivas, N; left back—Holmes, A; Dunkelberger, N; goalies—Sheffield, A; Scrivanich, N.
