

250 Greeks Take Dates To Annual Panhel Ball

Cigarettes Given For Army Camps

Defying the rapidly declining ratio of men to women students, 250 sorority women took dates to Panhellenic Ball last night.

Campus sorority women and dates, stray Greeks, advisers, chaperones, and guests danced to the music of Walt James and his Penn Staters from 9 p. m. until midnight at the Nittany Lion Inn.

Packs of cigarettes donated by sorority women will be sent to army camps where Penn State men are stationed.

Panhellenic Council sponsors the dance annually as the first formal of the year. Marjorie B. Strode '42 was chairman.

During intermission Gamma Phi Beta entertained their dates at the house. Alpha Chi Omega, Delta Gamma, and Phi Mu entertained after the dance.

Coed Skiers Cut Crazy Capers: No Concussions

Coed ski enthusiasts have been cutting capers on the gentle slopes of Holmes Field the past week, under the supervision of Miss Mildred A. Lucey, physical education instructor.

"I used to start my friends off on high hills so that they'd lose their fear of skis," Miss Lucey stated yesterday, "but after a couple concussions, I decided to teach the coeds on gentler slopes."

And after four years of ski instruction for Penn State coeds, there have been no casualties. White Hall is equipped with 15 complete sets of skis, some of them with hickory ridge tops, the best on the market.

Steel cables, harnesses, poles, and boots also provide would-be skiers with necessary materials.

Most of the coeds prefer Mondays, Tuesdays, and Thursdays for skiing because of Wednesday and Friday 8 o'clocks. Trips to the Centre Hills Country Club have already been made, and coeds will travel by bus to the Bald Knob ski trail tomorrow.

Coeds Aid Red Cross

Doing their bit for national defense, members of Raven and Serpent, junior women's honorary at Cornell, will spend all their Saturday afternoons and any other spare time at the Red Cross headquarters in Ithaca, N. Y.

We, The Women

Scattered Thoughts About Defense

It was a good idea for the College administration to request that professors refrain from overwhelming students with exams the last day of the semester. The main difficulty is that students will sweat blood the second from the last day.

Serious thoughts bring us to ponder the best time to donate our red corpuscles to the Red Cross—before or after our blue-books. We need all our strength to climb the mountain but, if we wait till the grind is over, the residue might be worthless.

Ah, defense . . . our schedules will overflow with courses to preserve our country but what about the regular courses?

Seems a bit illogical that so many cigarettes are donated to the armed forces by civilians. Boys in camps get them at about one-half the price others pay for them. Maybe the fad can be attributed to an advertising genius.

When rationing of clothes begins, many clothes-conscious coeds will thank their planets that they learned to knit way back then. Sweater can always be unraveled and turned into . . . another sweater.

The war was hardly a month old when Penn State coeds, foreseeing that women might rule the world, began wearing pants. Just practicing . . . at least until the mercury climbs out of its depths. Before December 8, the engaged or married coed was considered unique. Now the tables have turned. But what will happen when the sparkler diminishes?

Curtailed vacations . . . curtailed sports . . . and so on. There must be a medium or people won't be able to see which way the world is turning.

AEPHI's Nose Out Theta's, 2 To 1

Alpha Epsilon Phi defeated Kappa Alpha Theta, 2-1, in table tennis yesterday. Eddie Dobhoff '44 and Daisie Kranich '44 played for Alpha Epsilon Phi, while Anna Lee Carey '42 and Jane Berkebile '43 represented Kappa Alpha Theta.

Women's Building team four lost to Mac Hall team one, 3-0, also in table tennis. Nittany Coed defaulted to Women's Building in bowling.

Senior and junior basketball majors will try for the basketball championship of the first round of the tournament next week.

Coeds interested in trips to the Bald Knob ski trail, sponsored by the recreational group under Prof. Ray M. Conger, physical education instructor, will leave from Whitehall at 1:30 p. m. today and tomorrow.

Foods Division Will Show Film

"Meat and Romance," a sound film explaining the selection, cooking, carving, and food value of meats will be shown in 119 New Physics Building at 7 p. m. Tuesday.

Published by the National Live Stock and Meat Board, the movie is being sponsored by the foods division of the home economics department.

Students in home economics 13 are requested by Mrs. Emma G. Welch, instructor, to attend the movie in place of the demonstration class regularly scheduled at that time. Roll will be taken.

9 To 1—Those Frosh Forum Were Gay Days To Install 4

The ratio between men and women students is now about 3 to 1—but if you think that's good (or bad) you should have been here 20 years ago when there were 299 women and 2,702 men undergraduates or one coed for every nine men.

It's hard to tell what the ratios were many years before that because the College Catalog fails to give the necessary information. But, in 1896-97, all the women—yes, every single one—lived in a single cottage.

Fifteen years ago, every woman had her choice (theoretically) of one of six men. There were 474 coeds and 3,099 men.

In 1931-32, the proportion was just about the same, with 646 women and 3,627 men. The ratio dropped to 5 to 1 five years ago—4,250 to 968.

The next major change came in 38-39 or 39-40 when it was four coeds to one man. And the one after that is right now, with 4,612 men and 1,494 women.
