We, The Women Always Remember It's Your Decision

If you're an upperclass woman, probably you won't find this column particularly interesting—because it's about sorority rushing and you have your own opinions.

If you're a freshman, we want you to realize that the ideas we will present are not shared by everybody. It's still up to you to decide what you think about sororities and whether you want to be a Greek or remain independent.

Within the next few weeks, we feel that some freshmen and transfers might be in danger of losing their perspective. After rushing is over, they will find that sororities might not be so important as they appeared to be at first.

We say that, with no intentions of undermining sororities. They have many good points. After formal pledgings, you will find that coeds' thoughts and talk will swing back to temporarily neglected activities.

We hope that you rushees will remember that. We hope, too, that you will judge sorority women every bit as objectively and severely as they will judge you.

Between coed dates, take yourself aside for a short quiz. For example, ask yourself if your family can afford to have you join a sorority. You may check costs in the Panhel Handbook. If you work or plan to be an activities woman, will you have time for sorority activities?

If you aren't rushed, try to remember that some of the best women on campus (generally recognized as leaders scholastically, socially, and in activities) never joined a sorority.

We'll be saying more about the pros and cons of joining a sorority after rushing has been in progress.

Right now, our purpose is to urge rushees to keep their perspective, to realize that sororities, although important, are not necessary for a happy, well-rounded college life. We also urge you to strive for the objective view, to judge the women who rush you as individuals and not as members of a particular house.

Sorority Rushing

(Continued from Page One) bid results will be announced Sunday, July 19.

Any coed who is now eligible for sorority membership may be rushed. It was decided by Panhellenic Council at its meeting last night.

A motion passed by the Council eliminates social pledges from participating in rushing, but permits them to be rushed again. Social pledges, coeds who are unable either scholastically or financially to pledge a sorority, are not recognized by National Panhellenic Congress.

To cut expenses, sorority representatives agreed to eliminate individual house dances this semester, but plan to hold the annual Panhellenic Ball scheduled for August 7.

Dates for informal parties will be decided by Beatrice M. White '44, rushing chairman, when sororities notify her of their preferences.

Betty Jane Haupt '43 was appointed social chairman by Panhellenic executive committee.
