

Administration Announces Ten O'Clock Dimout Curfew

No Men Permitted In Dorms After 9

(For further details, see the dimout story on page 1)

To eliminate confusion during tomorrow night's dimout, coeds will be required to return to dormitories by 10 p. m., according to Miss Charlotte E. Ray, dean of women, and Margaret K. Sherman '43, WSGA president.

This rule will be nullified if the "complete" half-hour blackout, which will be a surprise announcement at an undetermined time, occurs before 10 p. m. In that case, coeds will go to the nearest air raid shelter and return immediately to dorms when the all-clear signal sounds.

Coeds may date until 10 p. m. but no men will be permitted in women's dormitories after 9 p. m., approximate starting time of the dimout. Women are urged by Miss Ray to remain inside buildings after 9 p. m. and any groups, gatherings, or meetings in the open are forbidden by George W. Ebert, executive officer and chairman of the committee on protection.

According to Miss Ray, conditions of lighting in women's dormitories will be identical for the blackout and dimout. In each building, rooms with covered windows may be used for study and relaxation.

During the half-hour blackout, coeds in McAllister Hall, Women's Building, home management and sorority houses will evacuate. Students in Grange Dormitory and Atherton Hall will remain in the buildings under supervision of wardens.

To explain differences in regulating among dormitories, Miss Ray said, "Women's dormitories are supervised by different wardens. The final authority in each building rests with the post warden in charge."

Air raid officers appointed in women's dormitories will assist with the dimout tomorrow night. Officers include marshals and co-marshals, assisted by leaders and trailers.

Ghost Ore Industry's Abandoned Furnace Deceives Picnickers

Out for a hike toward the Duck Pond and Bellefonte, students might be confused at seeing a large stone furnace, apparently put up for the convenience of picnickers. However, a bronze plaque is visible upon investigating the structure.

Inscribed on the landmark's tablet is the inscription, "This stack is part of the plant of the Centre Iron Co., which was erected in 1792 by Col. John Patton and Col. Samuel Miles, officers in the War of the American Revolution. The product of this furnace was the first iron smelted in Centre County and was carried on muleback to Pittsburgh. The furnace was operated from 1792 to 1809 and from 1826 to 1868."

The furnace is of especial interest at this time, for Saturday the Centre County Historical Society is sponsoring a program commemorating the 150th anniversary of its founding. Philip S. Klein, assistant professor of American History at the College, is campus chairman.

One of the few remaining landmarks of a once prosperous Centre County industry, the squat pile of weathered limestone was used as a furnace for blasting iron mined at nearby points. Little evidence is left now of the industry which helped to settle Centre County and died out because of the inferiority of the ore mined.

Dye To Speak Tonight

Allen Street Co-op will entertain Mrs. Elizabeth W. Dye, associate professor of home economics, at dinner tonight. Following dinner, Mrs. Dye will speak to co-op members on "Table Etiquette." Her talk will end in a round table discussion of the subject. This will be the first of a series of such talks to be presented to co-op members during the semester.

IWA, Panhel Collect Rubber

To participate in the nationwide rubber salvage program which will culminate tonight, Penn State women students have been organized into two main groups.

Sorority women, under the leadership of Pauline E. Keller '43, Panhellenic president, are divided into three units. Alpha Omicron Pi house will act as headquarters for unit one, which includes Alpha Epsilon Phi, Delta Gamma, Phi Mu, and Theta Phi Alpha. Alpha Chi Omega suite, unit two, will accept rubber donations from Chi Omega, Gamma Phi Beta, and Kappa Kappa Gamma. Kappa Alpha Theta house will be the destination of rubber donated by Alpha Xi Delta, Kappa Delta, Sigma Delta Tau, and Zeta Tau Alpha.

Independent women are to leave rubber donations with their IWA Council representatives, according to Muriel L. Taylor '43, independent senator.

A truck, provided by the State College Salvage Committee, will start its rounds at 6 o'clock tonight. Rubber will be sold at the rate of a penny-a-pound, proceeds of which will be turned over to the Army-Navy Relief Fund.

Coeds are urged by All-College Cabinet to contribute anything that has rubber in it, as special processing will extract the pure rubber.

Tars Send Thanks For House's Bars

Thanking coeds for the candy sent to them as a result of "Bars For Tars" day, May 25, men of the U.S.S. Atlanta wrote to Dorothy K. Brunner '44, WSGA vice-president and speaker of the House of Representatives, which group sponsored the program.

"Bars arrived in fine shape and were forwarded to the men on the vessel," the commander wrote, adding that sailors were flattered since most defense efforts are made for the U. S. Army.

House committee reports will be due at the next House meeting, in 318 Old Main, at 5 p. m. Wednesday, July 1, Miss Brunner announced.

CA Upperclass Women Will Advise Freshmen

In the absence of Agnes Highsmith, PSCA secretary, the Christian Association devised a plan to have an upperclass coed in the office at every hour of the day to advise and talk to freshmen.

Because of the freshman mass meeting tonight there will be no regular meeting of the Freshman Forum. Forum committees will meet with old chairmen this week. New leaders will be elected at these meetings.
