

WRA To Hold First Summer Co-Rec Swim

Sponsored by the WRA Outing Club, a co-rec swimming party to Whipple's Dam is scheduled from 2 to 5 p. m. Sunday. With a 25 cent charge, the first 35 students to sign up at Student Union will be permitted to go, according to Louis C. Lohrke '45, Outing Club president.

Participants will meet at the parking lot opposite White Hall and go to the dam by truck. This is the first swimming party sponsored by WRA.

Chauncey P. Lang, associate professor of agricultural extension, will act as caller at the square dancing, a part of WRA Co-Rec night next Friday, F. Doris Stevenson '44, WRA publicity chairman, announced last night. Starting at 6:30 p. m. the program will include badminton, volley ball, fist ball, archery, softball, croquet, and ping pong.

With a bonfire in Jordan Fertility Plots, group singing will be led by Harold W. Freeman '43. Square dancing and social dancing will be held on the parking lot with records providing the music.

In response to favorable hiking interest reports, there will be a WRA-sponsored All-College hike to Mt. Nittany leaving White Hall at 1:30 p. m. Saturday, July 25.

Anderson To Head Freshman Council

Barbara Anderson '46 was elected sub-chairman of Freshman Council at the Council meeting last night. With her election to this office she automatically becomes a member of WSGA Judicial, Patricia Diener '45, WSGA sophomore senator, announced.

A second freshman judicial member will be elected in the Fall. Margaret Stahlnecker '46 was elected secretary of Freshman Council at its last meeting.

Because of the accelerated program, Miss Diener revealed that the annual Big-Little Sister tea would be cancelled. Both June and September freshmen and their big sisters will attend a tea to be held in the Fall.

The next meeting of Freshman Council will be in 220 McAllister Hall at 5 p. m. Thursday, Miss Diener announced.

CURFEW CRIER — Marjorie L. Sykes '43, WSGA Judicial Committee chairman, reminds coeds that they may take three o'clock permissions for Soph Hop tonight and regular one o'clocks tomorrow.

Expert Promises Continued Quality In War Cosmetics

With saving demanded for every non-essential thing nowadays, coeds are wondering about cosmetics, and according to Bernice Peck, cosmetic expert, they need not.

Although they won't be as plentiful, Miss Peck reassures users that cosmetics will be just as good, if not better, than before, and that it is not at all unpatriotic to go on buying things that make one pretty, cheerful, and self-confident.

The ten per cent luxury tax goes directly to the government war fund, and as long as this is paid, coeds should feel free to buy any of these commodities.

Science goes marching on, war-times or not, and every day, although ingredients of perfumes and powders are changed, their odors lend more beauty. Shortages have produced new tricks in make-up, according to Miss Peck. Nylons have come to take first place in the minds of their wearers. However, scientists show that they are merely a chanced-upon combination of air, gas, coal, and water.

Following wartime suggestions, making one thing do the work of two, coeds find that hand lotion, besides making for many a smooth hand shake, will erase bumps on the arms, prevent skin infection, and take away chapped spaces.

Putting small portions of eau de cologne on hair roots or around the face on those decorative curls, is a new and "magnificent" idea. Soaps should be used in drawers as wartime sachets.

Miss Peck states, that by salvaging the salvage, one should not do without, but should make a little go a long way. She suggests that bottles, jars, and even lipstick cases may, in the near future, be demanded for refills. Letting soap dunk is fast washing away some that might not be so readily obtained later.

CLASSIFIED SECTION

LOST—One metal snare drum rod, near (or in) Carnegie Hall. Phone 4373, ask for Gloria. 2tpd 10, 11 C.

WANTED—Two private furnished bedrooms for a man and woman. Quiet, minimum roomers. Call 4477, evening. 3tpd 9, 10, 11 S.

LOST—Alpha Chi Omega sorority pin between archery targets and Ath Hall. Call Mary Jo MacDougall, 216 Atherton.

We, The Women A Date For Defense Fights For Freedom

It has been encouraging to see the rush of students to buy defense stamp corsages for Soph Hop even before President Roosevelt said he would like to see women wearing them today.

But the corsages being worn today have all been bought by men students, and it has been ever more encouraging to watch the Mortar Board sales of defense stamps grow. Most coeds are not oversupplied with money, and to see women students putting part of their allowance into national defense, without it being a part of some recreational activity like Soph Hop, is a pleasant sight to us.

Women on campus have a chance to help national defense in many ways. Here are three: get a defense corsage before you go to Soph Hop, even if you have to put stamps on a corsage of real flowers; put your dimes toward defense when Mortar Board members come around with defense stamps; help keep some student in school by getting a date now for Draftee Drag on July 17.

Women will find the Latin-American textiles and arcrafts in Room 3, Carnegie Hall, well worth a visit, especially from home ec majors. The brightly-colored exhibit will be gone after today.

—B. M. W.

Board To List Activities

In an attempt to equalize coed activity points, WSGA Junior Service Board will contact any coeds without points and display a list of campus activities which are suitable to their individual interests, it was decided at a meeting of the board yesterday.

Face powder should be gently rubbed on instead of patting it on the face, during which process much is wasted through sifting.

Women Fight For Rights

Women have come a long way since the time they first fought for equal suffrage, according to statistics revealed in United States Women's Bureau Bulletin.

With more and more women going into war industries, greater interest is being shown in women's trade unions and in the history of women who started out working for legislation, and economic and political improvement.

In 1939 about 173,000, or practically one-fifth of all the workers in the Federal service were women. Clerical occupations, such as typist, stenographer, or statistical clerk, were in the majority. Next to stenographers, nurses account for more women in the Government service than any other occupation.

Specialized knowledge or experience, such as that of statisticians, accountants, librarians, economists, social welfare workers, teachers, writers or editors, research workers in many fields, scientists, and laboratory technicians, is demanded for women's work.

In proportion to size of income, single women seem to carry as heavy financial responsibilities for dependents as do married women.

According to "The Women Graduates of a Collegiate School of Business," the attitude toward women in business positions is summarized as "this is not a man-made world, but a mis-made world, and the fault is not entirely that of men. Women themselves have carried the spirit of service almost to the point of subserviency."

The old idea that the business woman is "a bundle of nerves" can be abolished by training and adequate preparation, followed by hard work and alertness, as stated in this pamphlet.

Stamp Sale Nets \$11.80

Making a total of \$11.80 in the second Summer defense stamp sale, Mortar Board, national senior women's honor society, raised total sales to \$22.05, Pauline Crossman '43, president, announced. Sales will be conducted each Thursday at 6:20 outside Atherton Hall dining rooms and in McAllister Hall lobby.
