

Books Damaged In London Raids Put On Display

Books damaged in London raids are included in the exhibit of the "Fifty British books of 1941 organized by the American Institute of Graphic Arts" now on display in the Main Library. The exhibit will be closed October 10, Willard P. Lewis, College Librarian, said.

Odor of smoke remains in many of the volumes, and bomb splinters can be seen embedded in a few. Also on exhibit are several shell and bomb fragments, part of a German bomber shot down over England, photographs of the bombing of London, and striking British war posters for wall decoration.

Among several books of value in the collection is a facsimile of the manuscript "Day by Day" which was written in 1777 to cover the movements of American ships during the Revolutionary War.

The effect of the war on the production of books is noticeable in the bindings and the inferior grade of paper used in books on display. By stressing typography and design, British designers, publishers, and printers have overcome these difficulties.

There is no curfew for the library, Mr. Lewis stated. Students may feel free to come in and study until 10 p. m. as before, he emphasized.

We, The Women Rushees, It's Time To Start Burrowing

With the great day for new little Greeks only two weeks away, October 11, it's about time some serious thinking was done on the subject of rushing—a little under the surface.

As sorority women progress in the mad rush, freshmen and transfers become more and more bewildered. One group has a nice house, perhaps new furniture; all the kids in another house are "smooth" dressers and quite in the social limelight; another group is especially active in campus activities; and several other groups just seem to be good all-round coeds.

Perhaps you've got your choice narrowed down to five houses. You'd like to pledge all five of them. Two weeks remain in which you can carefully judge the merits of each house and decide with which group you would like to be associated for the rest of your college career.

Don't be swayed by any "lead piping." Sororities guilty of this act, in actuality, are lowering your standard of mentality. You have the ability to make your own decisions.

Opportunity for frosh and transfers to become better acquainted with Greeks will be provided by "free association" periods from 4:30 to 5:30 p. m. next Monday, Tuesday, and Thursday, and an open house from 4 to 5:30 p. m. Wednesday, according to Pauline E. Keller '43, Panhellenic Council president.

Miss Keller urges Greeks to keep these free association periods very informal.

Final political battle lines will be drawn Monday, when Independent and Campus parties of both the freshman and junior classes meet in Old Main to choose nominees for seven class offices.

Remembering the chance meeting Wednesday, Barnett notified Police Chief John R. Juba, of the State College police force, the next morning.

Together they went to the State College High School where Barnett identified one of the students as the possible thief. The suspect confessed after three twenty dollar bills were found in his wallet. He admitted burning a check for \$28, but said that he had spent the remainder.

Juba declared the case closed after the high school youth showed the police chief where he had hidden the wallet.
