

Sharmen to Speak At Phys Ed Council Dinner Tomorrow

J. C. Sharmen, noted physical education instructor, lecturer, and author of many books on the subject, will address those who attend the Physical Education Council banquet which will be held at the Methodist Church at 5:30 o'clock tomorrow evening, according to Chairman Grace L. Judge.

His subject will be "The Physical Education Program in War and the Post-War Period." A motion picture entitled "Fit to Fight on All Fronts" will also be shown, Miss Judge stated.

Dr. Lloyd M. Jones, head of the men's division of physical education, will attend the banquet as will also other members of the physical education staff.

PSCA Institute Speakers Discuss War Marriages

Contrary to popular belief that war marriage is a rushed union because of the war, Dr. and Mrs. Harold C. Coffman and Mrs. Mary Cuthbertson defined it as any marriage after December 7, 1941, in an informal panel discussion on "Will War Marriages Work?" in 121 Sparks, 7:30 p.m. last night.

All speakers concluded the qualifications for a lasting marriage must consist of a sense of security and the power to love and to be loved.

Members of the ticket committee are Joan Finn, Charlotte Spangler, Eleanor Wills, Vivian Martin, Thomas Williams, Donald Carruthers, Leonard Catanoso, and Henry Berle. The price of admission is 55 cents, and tickets may be purchased from any of these individuals.

Denver Prof Explains Why Men Are Superior Athletes

For those who have wondered why the greatest athletes aren't women, Professor Ganny Johnson of Denver University now has prepared a clear explanation.

"The center of gravity in women is too low to permit them to be good competitive athletes. In racing cars a low center of gravity is a good thing. This is not so in the human form. If you study an analysis of the female body as compared with the male, you will see that women are heavier around the hips than men."

Mr. Johnson also points out that the capacity of a woman's chest, on the average, is smaller than a

man's; a woman's heart is smaller than a man's. Therefore, the man, with his big chest and heart and lung capacity, has his weight where it does him the greatest good. A woman's weight, however, is around her hips and it adds nothing to her endurance.

As an afterthought he said that women have greater endurance of another sort. For example, nurses and mothers usually can stay on their feet longer, tending a sick child, than fathers.

Soccer candidates are to report to Rec Hall for practice from 3 to 5 p.m. Monday through Friday.

Sorority Entertains

Zeta Tau Alpha, in celebration of National Inspection Week, is entertaining Miss Raxanne Baird, province president, and Mrs. Lucille Roberts, national vice-president, from Sunday to Thursday. In accordance with the celebration, mock pledging and initiation ceremonies will be held, and the guests will hold conferences with officers and chapter heads.

Representatives from each sorority on the campus were entertained at a coffee hour, held in honor of the two guests and given by the pledges.
