

Penn State Engineer Features Color Photo, Prize-winning Articles

The July issue of the Penn State Engineer will be rolling off the press in the very near future, announced Charles P. Ammerman, editor. It is the first campus publication in the history of Penn State to have a natural color photograph on its cover.

Also in this edition will be found the winning articles for the July contest. The recipient of the first prize of ten dollars is D. Bernell Spatz for his article, "Cooperative Education." Spatz was an engineering student and is now serving in the Army. The second prize was claimed by Jack Nesbitt, chemical engineer, also of the armed forces, for his article, "Meteorology, War's New Weapon." These features will be supplemented by many other articles and comprehensive studies.

Three new members have been added to the executive staff of the Penn State Engineer. These additions are Fred P. Boody circulation manager; Robert T. Kimmel, feature editor; and Fred Mazzitelli, advertising manager.

At a recent meeting for new candidates, twenty aspirants came out and showed their interest by helping to publish the Engineer. Any other new candidates are requested to be present at the meeting of the Penn State Engineer staff in 100 Main Engineering, 7:30 p.m. Monday evening.

Kern Names Tribunal

(Continued from Page One)
force proper conduct.

Heading the committee is Harold F. Bucher, with Robert I. Brawn, Margaret L. Chapman, Larry T. Chervenak, and Jane H. Murphy as other members.

Another problem tackled by Cabinet was that of improving the appearance of campus despite the usual summer increase of paper, coca-cola, and beer bottles as lawn decorations. It was suggested that early Sunday morning disposal of such items as a method of penalizing freshman customs offenders might be one solution.

Larry E. Faries proposed consideration of reviving class meetings as a method of stimulating interest in campus activities.

Letters will be sent to the service units on campus inviting them to send representatives as ex-officio members of Cabinet, Kern stated.

According to the procedure inaugurated this semester, Cabinet includes the eighth semester presidents, WSGA president, interclass finance chairman, and ex-officio members Dean of Women Charlotte E. Ray, Dean of Men Arthur R. Warnock, and Alumni Association Secretary Edward K. Hibshman.

Chi Omega initiated Nancy Lenker, Marilyn Macadam, Gloria Derst, Elaine Smyers, and Amy Caporaletti last night.

Alumnae will hold a picnic for actives in Hort Woods July 31.

Dafe Bureau Set Up At Service Center

Norma R. Stern, representing the Independent Women's Association, will be down at the Service Center each Tuesday and Thursday from 9:30 to 11 a.m. and from 6:30 until 7:30 p.m. to sign servicemen up for dates.

On Saturday from 1:30 to 5:30 p.m. Miss Stern will file information such as height, weight, age, religious preference, dancing ability, and special interests so that the men can be matched with suitable coeds.

This service has just signed up approximately one hundred coeds. Information gathered from them will be matched as closely as possible with that of the servicemen. IWA requests that the men report on the success of the service.

PSCA Plans Woodcrest Playground Construction

To comply with the urgent need for children's recreational facilities at Woodcrest, the PSCA has volunteered to build a playground for them. A clearing has been made near a large oak tree in the corner of a wheat field in that vicinity.

Plans for building a seesaw, sand box, sliding board, and swings have been made, according to Chairman Palmer Sharpless, industrial education student. However, donations of nails, lumber, and physical labor will be greatly appreciated.

The playground will be open every afternoon and coeds have volunteered to give recreational instruction on Tuesday, Wednesday, and Thursday afternoons under the leadership of Violet Seigle.

Service Trainees Swell Meteorology Enrollment

Charles L. Taylor, instructor in meteorology, announced that student registration in the meteorological curriculum is the second largest in the school's history. Of the more than 170 enrolled, at least 65 per cent are Navy and Marine trainees.

Added to this are 180 Army Air Force students, increasing the number of student hours taught by Dr. Neuberger, professor of meteorology, and his assistant, Charles L. Taylor, to more than 1,500 per week.

The publishing of daily weather forecasts will be continued, with copies being posted on the bulletin boards at Student Union and on the first floor of the Mineral Industries School.

Room Reservations

Reservations for the use of rooms for evening meetings must be made at least 24 hours in advance at the Scheduling Office, 108 Old Main. No rooms will be opened unless a permission slip is sent to the janitor of each building concerned by the Campus Patrol office.

On Ag Hill

To help alleviate the farm labor shortage, the College agricultural extension service will administer emergency farm labor offices in every county of the state. Centers will recruit, train, and place on farms students of high school age and inhabitants of cities and towns. Several farm labor camps will house large groups, mainly in the southeastern counties. The forestry school building at Mont Alto, no longer used by the College, will be made available for this purpose.

Approximately 100 representatives of the State Milk Distributor's met here for conference Tuesday and Wednesday to hear recommendations of the College staff with respect to efficient methods of production. Ten members of the agriculture staff led discussions.

Members of the Agriculture School faculty who have not yet submitted to the dean a proposed research project to be financed from the central fund for research are requested to do so immediately, according to Dean Stevenson W. Fletcher.

Hetzel Visits Washington

President Ralph D. Hetzel returned yesterday from a two-day visit to Washington, where he attended a meeting of the Advisory Council of the ASTP.

The committee, which is composed of ten college and university presidents, is headed by Colonel Herman Beukema. The meeting was for the purpose of discussing the progress of the ASTP and determining future policy.

SU Holds Lost Articles

Articles lost by students on the campus will be returned to them if these students present themselves at the Student Union and prove their ownership.

Two Infantry Field Manuals, two slide rules, a New Haven man's wrist watch, a red cigarette case, numerous fountain pens, books, and notebooks have been found, and are among the articles for claimants.

Hebrew Classes Offered

Hebrew classes for all students desiring them will be given by Rabbi Kahn. They will be held one hour a week. Students wishing to attend these classes must sign up as soon as possible. No registration fee will be charged.

Attends Phi Mu Congress

Olive Van Houten, Phi Mu president, spent last weekend at the national Phi Mu convention held in Chicago.

Servicemen Learn Military German

Military students at the College are learning military and soldier's German—just in case.

Prisoners of war may find a knowledge of colloquial German helpful, according to Dr. Philip A. Shelley, who is teaching the course. Instruction in military German would be useful for an army of occupation, he pointed out, and valuable to those Johnny Doughboys who capture German prisoners. Those who are taking the course should also acquire sufficient knowledge of German to read military documents, serve in the intelligence service, or use in the diplomatic service after the war.

The chief text for the course is compiled from selections taken from recent numbers of specialized German military periodicals, some of which are the official publications of the various branches of the German armed forces. It includes excerpts dealing with the invasion of Poland, of Norway, and of the Lowlands and France, as well as with the November 1940 air raids on England. It has received favorable comment from responsible officers in our country's services.

Inquiries concerning the course have been received from as far west as Oregon and California.

Alpha Omicron Pi recently initiated Mary Lou Davis and Mona Shibli. A supper for graduating seniors will be held at the house Sunday.

Mortar Board Continues Defense Stamp Sales

Mortar Board, senior women's honor society, collected a total of \$31.65 for defense stamps sold in the dining commons after supper July 15.

First shift Ath West bought \$9.35; second shift, \$8.75; first shift Ath East, \$4.15; second shift, \$1.30; Sandwich Shop, \$8.10. Pan Hellenic bought \$61.75.

Defense stamps will be sold Thursday after dinner in the Sandwich Shop and after both shifts in Atherton, announced Grace E. Judge, Mortar Board president.

Max Lerner To Speak

(Continued from Page One)
This noted lecturer was born in Minisk, Russia, in 1902 and was brought to America by his parents when he was five years old. He was graduated from Yale University in 1924. He also attended Washington University and the Robert Brookings Graduate School of Economics and Government in Washington, D. C.

Lerner has been asked to speak in conjunction with the twenty-first annual superintendents' and principals' conference held Tuesday, Wednesday and Thursday. The public is urged to attend.

Mitchell Calls Meeting

Freshmen and sophomores who wish to try out for the Collegian business staff will meet in the Collegian business office at 4:30 p.m. Wednesday, Philip P. Mitchell, business manager, announced.
