Fishburn Discovers Hope For Hepcats In Classical Music

Does Junior sneak away from his piano practice to join the jam session at the corner juke box? Don't worry.

A suggestion that the younger generation's love of hepcat music be utilized to arouse a better appreciation of classical music was advanced today by Prof. Hummel Fishburn, head of the music department at the College.

"Rhythm," the professor explained, "appeals to everyone—even babies and savages respond to it. Music educators would do well to recognize this, and endeavor to interest jitterbugs in classical music by stressing its rhythmic appeal."

Pointing out that many fine art critics enjoy cartoons and comic strips and that many classical musicians likewise enjoy popular music, Professor Fishburn contends teen-age hepcats can be taught to appreciate other types of music. It is possible for a youngster to like both Harry James and Beethoven, he said.

A DURATION DO!

Your shirts are valuable items these days and appreciate special handling.

Turn up your shirt collar before sending it to the laundry. A collar washed flat doesn't fray so easily at the crease.

Have your shirts laundered frequently. A too-soiled shirt requires more scrubbing and consequently wears out more quickly.

Go easy on the starch. Starching stiffens fabric, so that it breaks instead of bending.

When you buy, buy Arrow. Arrow shirts are longer-lasting, better-fitting, and carry the Sanforized label (fabric shrinkage less than 1%).
