

### War News-

Howl since the war started almost seven years ago.

**Pacific Theatre**—The big news of the week was the invasion by General MacArthur's forces of Biak Island, off New Guinea, only 900 statute miles from the Philippines. After consolidating their positions they moved toward the Mokmer Airfield and met bitter Japanese opposition. On Wednesday of this week a tank duel took place, the first of its kind in the Southwest Pacific theatre. The Americans seem to hold the advantage.

On the diplomatic front Mr. Churchill's praise of the Franco fascist government has been sharply criticized by many people, including President Roosevelt.

Gen. de Gaulle is preparing for a trip to London to talk with Mr. Churchill about administering France after the invasion. De Gaulle and the French officials are dismayed at the refusal of the United States to participate in the London talks. The French were further shocked on Tuesday by a London report that Gen. Eisenhower had accepted responsibility for the civil administration in France. This responsibility, Gen. de Gaulle has repeatedly said, could be only French. Secretary of State Cordell Hull has announced plans for a four-power peace talk which would look to the "establishment of an international peace and security organization."

ment, acts as director for my performance.

"When I am directing, William Morton, the assistant director walks through my part. This allows me to get a picture of the stage as a whole and to concentrate on each actor bringing out the proper character portrayal.

"Another device to aid our actors check their character interpretation is the 'sound mirror.' The actor talks into the microphone and the voice is recorded on a disk. When the disk is com-

pleted, it automatically plays back the performance. Since no one hears his voice as it sounds to other people, the cast learns how it would sound to an audience, and this enables it to adjust its delivery," Tucker concluded.

Before coming to Penn State five years ago, Professor Tucker had a wide variety of dramatic experiences including acting in 37 states and six Canadian provinces.

company of the finest young manhood of our Nation. And so there has been built up a glorious record of heroism and sacrifice. And with it there has grown in the consciousness of our people a mounting sense of gratitude and veneration for those who have given their fortunes and their lives for the preservation and extension of the blessings of freedom and justice throughout the world.

"We assemble here this morning in solemn and grateful tribute to those who have made the supreme sacrifice in order that everywhere on the earth life may be richer and better and happier. It is a proud privilege to salute this great company of our heroic dead.

"In this crucial hour, let us repledge our faith and our loyalty to the principles and ideals for which they died."

### Army Program-

Approximately 90 of the men who will report to the College next week are 17-year-old reservists who will enter the program directly from civilian life. The others are men who have been studying under ASTP at the University of Pittsburgh, Princeton, Harvard, Cornell, the University of Florida, and the University of Wisconsin.

Lt. Col. Guy G. Mills, acting commandant, will speak briefly at the exercises tonight. Dr. Harry P. Hammond, dean of the School of Engineering, will present the graduates to President Ralph D. Hetzel, who will award the certificates.

Speaking of ASTP at the College, Colonel Mills said: "I am happy to express my appreciation for the excellent accomplishments of the group here at the College. Not only have they achieved an

excellent scholastic record but also they have succeeded in maintaining the highest morale."

Since establishment of the program at the College last June, approximately 1500 men have finished basic engineering training and 438 have completed the advanced engineering curriculum.

After the hang is over  
After you've gone astray  
After the drunk has ended  
After you've quit your play  
All of the gang is happy  
Everyone's on their way  
We've had a lot of fun here  
Sorry we cannot stay.

We are all broken up too  
And we would like to say  
That we will make the new crew  
Brighten the coming day.
