

IFC Dating Code Gets Approval

Innovation Provides For Extended Privileges

Unanimously approved by the Senate Committee on Student Welfare August 17, the Interfraternity Dating Code for 1944-45 becomes effective today.

Two major changes in the code are: a social fraternity must consist of ten members in order to have dating privileges; and Saturday dates may be entertained in the houses until 12:30 a.m. instead of midnight.

Members approving the code were Dr. Laura Drummond, chairman; Dr. J. P. Ritenour, Prof. Edward C. Henry, Dr. John H. Frizzell, faculty members; Charles Alcorn, Peggy Chapman, student representatives; G. G. Rosen, WS GA representative. Dean Arthur R. Warnock and Dean Charlotte E. Ray were also present at the meeting.

The code follows:

1. A social fraternity shall be considered throughout this resolution to consist of a group of fraternity men of at least 10 members, including pledges, living together in a house, the whole of which, not a unit such as an apartment, is owned or rented by the social fraternity, and is operated by the fraternity's members.

2. Women guests are to be allowed only on the first floor, except in houses where specific exceptions are made by the Dean of Men, the Dean of Women, and in no case in the rooms of men.

3. A living room or clubroom where women guests may be entertained must be provided which is well lighted by three or more

Tau Beta Pi To Initiate 5

Tau Beta Pi, national engineering honorary, will hold formal initiation for five new members in Hugh Beaver Room, Old Main, at 4 p.m. tomorrow, Gunther Cohn, president, announced today.

The initiation will be followed by an informal banquet in the State College Hotel at 5:30. All members of the honorary are urged to attend both initiation and banquet.

The banquet will feature the presentation of a badge to Althea Shaffer, co-editor of the Penn State Engineer, which will signify that she has filled all qualifications necessary for membership in the honorary, but cannot be initiated because women are not permitted.

This is the first badge to be presented to a woman at the College and the fifteenth nationally. The presentation will be made by Dean Harry P. Hammond.

The main speaker of the banquet will be Prof. John H. Frizzell, College chaplain, who will speak on "The Vitality of Scholarship." The toastmaster is Earl B. Staveland.

The members to be initiated are: Frank Adams, Warren Bosert, Ephraim Catsiff, Karl V. Erdman, and Thomas Innocenzi. All are chemical engineering students.

The officers of Tau Beta Pi, which accepts only engineering students with outstanding scholastic records, are: Gunther Cohn, president; John Curry, vice-president; Jess W. Oren, corresponding secretary; Anthony Turchetti, recording secretary; Alan B. Grafinger, treasurer; and Robert D. Gleichert, cataloger.

Dr. Laura Drummond, chairman of the Senate Committee on Student Welfare, announces unanimous approval of the 1944-1945 Interfraternity Dating Code.

ROTC Professor Leaves College

Lt. Col. Warren E. Cleveland, assistant professor of military science, has been reassigned to Hampton Institute, Hampton, Va. He will serve as professor of military science and tactics there.

Before his assignment to the College, Col. Cleveland served as liaison officer between the office of the Assistant Secretary of War and the state of Indiana in connection with selective service. In addition, he was state advisor on occupational deferments in Indiana.

Col. Cleveland served in France during the last war, rising to the grade of sergeant in the corps of engineers. After World War I he returned to the University of Illinois to complete his education. Later he was commissioned in the Reserve Corps.

Prior to the present war he had risen to the rank of major. He has been promoted to his present grade since he has been stationed on campus. He was called to active duty in September of 1940 and came here in the fall of 1941.

Before returning to active duty Col. Cleveland taught mechanical drawing and coached football in Indianapolis high schools.

His son, George Cleveland, is enrolled in the freshman class. He expects to remain until he is called into active military service.

PSCA Plans Frosh Frolic; Floor Show Tops Program

Freshman Men's Council and Women's Forum, elated at the prospect of an elegant brawl tonight, have burst into psalms of verse to proclaim the glad tidings:

"Dejected frosh—Unhappy fate
Tribunal firm—No date
C.A. Plans—horizon bright
Freshman Mixer comes in sight.

The twenty-fifth—Friday every
Frosh, their cares and worries
leave
At the Armory they will arrive
And live from 7 to 9:45

Dancing, singing, fun galore
And mixing games will be in
store
Friendships old, frosh will
renew
And make some others that
are new"

In addition to the blandishments offered in the poem, a floor show featuring Jinx Falkenburg on the accordion and Johnny Sertar on the clarinet is scheduled.

Decorations To Highlight 'Ship's Ball'

Extensive decorations reminiscent of pre-war formals will highlight the Navy-Marine "Ship's Ball" at Recreation Hall one week from tomorrow night.

The dance will have a nautical setting with bits and stanchions surrounding the dance floor. A ship, the "USS Nittany," will be constructed at the far end of the gymnasium. The imaginary sea-going vessel will have a deck, bridge, wheel, rail, and fittings.

To the left of the ship will be the bandstand which also will be elaborately decorated. The Navy-Marine Band under the direction of Pvt. Gene Keller will play for the formal. Betty Ann Wiser will handle the vocals.

One of the features of the dance will be individual booths for each V-12 barracks. Plans are now under way to also have booths for ASTP and civilian students.

Lt. Comdr. Trusdell Wisner and Lt. Harry Light, originators

Prexy Appoints Insley New Petrography Prof.

Dr. Herbert Insley, senior petrographer of the United States Bureau of Standards since 1922, has been appointed professor of petrography and head of the department of earth sciences at the College, President Ralph D. Hetzel announces.

Dr. Insley, who will begin his duties September 1, heads one of three newly-created departments which resulted from Dean Edward Steidle's new organization plan for the School of Mineral Industries.

The new appointee has worked for the Bureau of Standards, as an assistant physicist; for the U. S. Geological Survey, as an associate geologist; and in petrography work, (the description and systematic classification of rocks) for the Bureau of Mines since 1921.

Dr. Insley is a graduate of Hamilton College, and earned his doctorate at Johns Hopkins in 1919. At Johns Hopkins he was a University Fellow, a Phi Beta Kappa and member of Gamma Alpha, graduate scientific fraternity

PSCA Plans Frosh Frolic; Floor Show Tops Program

Freshmen election returns will be announced.

Admission is by free ticket only. They may be procured by any member of the Forum and Council at 304 Old Main or as the poet laureate, Margaret Cook, aptly phrases it:

Tickets free for members in good standing
If you're overlooked, come
To C.A. third floor landing

Hat Societies Approved

Approval of the Hat Societies Council by Cabinet was announced by Ed Williams, president of Parmis Nous, at a meeting Wednesday.

The date and procedure for tapping was discussed at that time. A measure was also passed to crack down on those freshmen not observing customs.

The next meeting of the club will take place in Old Main at 7 P.M.

Frosh Elect Jess Panar First Semester Prexy

The psychological role of the third party in an election is to split votes. Such was not the case in yesterday's election, however, when the newly-formed Nittany party went over the top with 101 votes, making Carmen "Jess" Panar, a Guadalcanal veteran, freshman president.

With a plurality of 97 votes, Gladys Stryker, Lion, became secretary-treasurer of the first semester class, nosing out Felix Roth, Key, and Elwood Petchal, Nittany. Defeated candidates for the presidency were Glen Yeagley, Key, and Fritz Herbine, Lion.

Prexy Panar is a veteran of three years with the fleet Marines, member of Carlson's First Marine Raiders, and

DEAN EDWARD W. STEIDLE

Steidle Releases New Plan For MI

Details of the new organization plan of the College's School of Mineral Industries, a plan approved by the Board of Trustees, were made known today by Dean Edward Steidle.

Three new departments will be created—earth sciences, mineral engineering, and mineral technology. Heads of the departments will coordinate 12 divisions of work: geology, mineralogy, geophysics, meteorology, geography, mineral economics, mining, mineral preparation, petroleum and natural gas, fuel technology, metallurgy, and ceramics.

In addition, Mineral Industries Extension Services and the Mineral Industries Experiment Station each will be served by a director.

Chiefs of the divisions are key men and will give close attention to student personnel and guidance, Dean Steidle said. He explained the three principal classifications this way:

"The earth sciences are concerned with those divisions of natural science which relate specifically to the earth—land, air, and water. Mineral engineering is concerned with extracting minerals from the earth and preparing them for use—conserving and making available mineral matter, including fuel. Mineral technology is the science and systematic knowledge of primary methods of processing and treating mineral matter and directing its industrial utilization."

This plan, Dean Steidle said, is geared to the future needs of the mineral industries of the Commonwealth and is in accordance with the spirit of the organic Land-Grant Act.

Ship's Ball Tickets

Three hundred tickets for civilians for the "Ship's Ball" are available at Student Union until noon tomorrow. The price is \$1.00 per couple.

holder of the Purple Heart, Presidential Citation, and Gold Star. Miss Stryker is active in Freshman Council and PSCA.

All three parties were penalized for some violation of the Freshman Elections Code. Key party was docked two votes for turning in its candidates' list past deadline. Lion clique was fined four votes for missing a meeting with the Elections Committee. Nittany party was penalized two votes for being late to a Committee meeting and failing to have a candidate present.

Penalties were decided upon by the Elections Committee behind closed doors in the Penn State Club room in Old Main. Clique chairmen of the three parties were admitted when the pink ballots were tabulated by the Committee.

Frosh are alert and interested in their student government as is shown from the fact that 228 out of an approximate 350 first semester students voted.

A tabulated list of votes received by each candidate follows:

X-G-I Group First Of Kind

Penn State's veterans' organization is the only one of its kind in the United States, said Lt. Col. William R. Young at a meeting of the X-G-I Club at the American Legion home Tuesday night. Col. Young, director of the Armed Forces Institute of U. S. Army Education, is a Penn State alumnus.

Plans for a forthcoming social event were discussed. The following were elected to office: J. Paul Pioth, commander; Harry A. McMillin, vice-commander; Carmen C. Panar, adjutant; William Maginn, finance officer; Walter P. Falkenberg, historian; and Walter M. Robinson, chaplain.

Ray Hensler, James Marshall, and Joseph W. Wilson were chosen to serve on the Executive committee, a judiciary body. The American Legion appointed Prof. Andrew W. Case of the department of architecture, Marlin C. Mateer, owner of the Corner Room and Allencrest Tea Room, and John R. Doty as advisers to the club.

Among the students who joined the group at the last meeting are: David F. Baum, A. M. Benschhoff Jr., John B. Davenport, Ray Hensler, Robert O. Larson, William H. Renton, William C. Reutti, Walter R. Schwab, Glenn B. Smith, Wesley J. Turek, Joseph A. Wilson, and John Zarzak.

At the next meeting at the American Legion home 7:30 p.m. Monday the members will choose a design for the club's pin and key.
