

Ship Ahoy

By A/S FRED VOGEL

Last Wednesday night, Salty V. Twelve was busy as usual—not with Physics or Math but with getting something to be thankful for. His search led him to the parties at the AOP house or to Acacia house, which is now a dorm for second-semester Freshman. Salty must have had a good time—he sure had a big appetite on Thursday—for food we mean. Thanks, girls.

The good word seems to be that a Navy dance will again come this way. Although no details are known at present, the date is to be sometime in January. Also under-weight are plans for individual barracks parties. Bks. 20 has set theirs for January 6.

Scuttlebutt

The \$64 question this week is asked by A/S Francis Ianni—"Who blew out the flame?" . . . He sure burns up easily . . . A/S Skip-nimble-toes-Nichols is thinking up a new line—one that doesn't require a big personality smile . . . Among the crowds at the big game on Saturday was A/S Walt Kuenzi with his so-called one and only "Kay" . . . A/S Frank Tiedemann who is a star member of the "Worry-Wart

Club" has at last stopped worrying for a weekend leave . . . Now starts his "worrying over a Christmas leave-campaign" . . . The current attraction in Mac Hall for A/S Chuck Calhoun is a blonde on the 2nd deck . . . It may be the 3rd deck—but the girls are okay there too.

The Date

A/S Hubie Randall hasn't changed his address to the Kappa house . . . He might be helping them paint the porch—that is if they are painting at all . . . A/S Dave Evans and A/S Frank Steinbrink are thinking of becoming night club entertainers . . . They were seen "dancing for nickles and dimes" at a local hot spot the other P. M. . . . Back at the barracks he's known as "Bubbles" LaVoice . . .

To Susie:

Again this hopeful lass has written Ship Ahoy in search of her "one-half" sailor allotted to her in the 2 to 1 ratio of girls to fellows on campus . . . Susie has tried last week's suggestions with no avail . . . The only answer at present seems to be to join the WAVES . . . You'll not only get your sailor, You'll be one!

Dye to Discuss Reading

The first of the Wednesday readings will be given by Dr. William S. Dye, clerk in the statistics office, in the Library at 4:15 p. m., Wednesday.

Adrian O. Morse, assistant to the President in charge resident instructor, will introduce Dr. Dye who will speak on "Books and Reading."

Dr. Dye will discuss the method of selection which results in lists of "best" books and of the way such lists may be used to the reader's greatest advantage.

Students, faculty, and twons-people are cordially invited to attend.

Additional tryouts have swelled the ranks of the Girls' Choral Group to 115 members.

NEW CAMERA "SHOOTS" FLYING PROJECTILES

WHEN Army ballistics experts needed to photograph speeding rockets, scientists at Bell Telephone Laboratories built the special "ribbon-frame" camera. Their experience came from making high speed cameras to study tiny movements in telephone equipment parts.

The new camera gets its name from the narrow slot that exposes a ribbon of film at a speed of one ten-thousandth of a second. These "stills," taken on ordinary film, show a fast flying P-47 firing its underwing rocket.

This is an example of the many ways Bell System research is helping to provide better weapons, better equipment for war and peacetime telephone service.
