

Sigma Xi Initiates 21 New Members

Twenty-one members, 19 actives and 2 associates, have been initiated into Sigma Xi, national scientific research honorary society, at the College.

The society will meet in 117 New Physics at 8 p.m. April 17 to hear J. M. Spooner, RCA Victor Division, Radio Corporation of America, speak on "Mechanical and Thermal Stresses in Glass." Mr. Spooner will conduct a demonstration which will enable the audience to see stresses as they are produced in glass.

Active members are E. J. Anderson, assistant professor in apiculture; E. C. Chapin, formerly graduate assistant in chemistry; J. W. Pence, research assistant, agricultural and biological chemistry; A. Pohland, formerly graduate assistant in chemistry.

S. C. Rogers, formerly graduate assistant, agricultural and biological chemistry; W. A. Strong, formerly graduate assistant in chemistry; P. R. Ulshafer, formerly graduate assistant in chemistry; Adrian J. M. Yeigle, formerly assistant in agricultural and biological chemistry.

Ruth B. Warner, formerly graduate assistant in chemistry; W. H. Yanko, formerly graduate assistant in chemistry; C. W. Ziemer, formerly graduate student; D. G. Clarke, formerly graduate assistant in chemistry; R. H. Cotton, instructor in chemistry.

S. W. Harding, instructor in physics; Herbert Inslay, professor of earth sciences; E. M. Kipp, formerly graduate student; S. Lawroski, formerly research assistant in chemistry; R. W. Lindsay, assistant professor of metallurgy; and H. A. Meyer, assistant professor of forestry.

Associate members are R. D. Dresdner, research assistant in chemistry; and Helen A. Fardig, formerly graduate assistant, agricultural and biological chemistry.

Internationals Elect Mayers as President

Recently elected officers of the International Relations Club are: Joseph Mayers, president; Kay Miller, vice-president; Helen Drennan, secretary; and Dorothy Phillips, treasurer.

The club will meet in 316 Sparks 4:20 p.m. every Wednesday. Programs are planned for each meeting, and freshmen are especially urged to attend.

A total of 2470 courses in 110 subject matter fields are listed in the College catalog.

Galbraith Outlines X-G-I Rights

"To assist veterans in making most advantageous use of the existing agencies of the College, and to cooperate with these agencies in providing for the veterans."

In this manner Prof. Robert E. Galbraith sums up his position as Faculty Counselor of Veterans, an office which was created last August by President Ralph D. Hetzel at the recommendation of the committee on postwar planning.

According to Professor Galbraith, there are about 140 former servicemen on campus under Public Law 346, better known as the GI Bill of Rights. Approximately 20 per cent of this number are aided by Public Law 16, the Vocational Rehabilitation Program.

The Veterans' Administration, acting as the agent for the government, pays for all books and fees for veterans, in addition to varying amounts of subsistence. The latter ranges from \$50 for single men on the GI Bill to about \$100 for married Rehabilitation students. Veterans on the GI Bill may choose any course they wish, while those on Public Law 16 enter their courses only after advisement and testing, and may not change

PROF. ROBERT E. GALBRAITH

their major without the consent of the administrator.

Professor Galbraith acts as liaison officer between the veterans and the Pittsburgh Office of the Veterans' Administration, which

has jurisdiction over students on this campus. In addition, he answers questions on their local problems of study, housing conditions, etc. Cyrus V. Bissey acts as the fiscal agent for the ex-GI's.

Approximately 100 letters arrive at the Counselor's office each month from all war fronts. To reply to these requests, Professor Galbraith and the Office of Public Information have prepared a pamphlet which will soon be ready for distribution.

The Veterans' Faculty Counseling Committee, of which Professor Galbraith is chairman, consists of a representative from each school and the administration. This group welcomes inquiries concerning student adjustment, although they do not take the place of or assume the duties of faculty advisers or any of the existing College agencies.

The Committee includes Dean Arthur R. Warnock, Cyrus V. Bissey, Michael R. Cannon, H. Mauzee Davis, William V. Dennis, Royal M. Gerhardt, William S. Hoffman, John D. Lawther, George N. P. Leetch, Carl E. Marquardt, Bruce V. Moore, Joseph P. Ritenour, and Charles C. Wagner.

PSCA Sponsors Weekend Party

The PSCA All-College cabin party will leave from the back of Old Main at 2:30 o'clock tomorrow afternoon, announces Robert Dunlap and Barbara Struck, co-chairmen. Transportation will be provided for everyone.

Hiking, square dancing, and a moonlight hike to "Inspiration Point" on Tussey Ridge will highlight the evening's activities. Easter morning Ann Berkheimer will conduct the dawn service. The group plans to return to State College in time for church services.

Tickets for the cabin party will be on sale in 304 Old Main until noon today.

Freshman Council and Freshman Women's Forum will hold a combined meeting in the PSCA rooms, Old Main, at 7 p.m. Monday. The group will form a First Semester Club.

New officers will be installed at the meeting. PSCA Commission II, represented by Stanley Coville, Theresa Haskins, and George Paul Jones, will be in charge of the meeting.

Dr. Stuart A. Mahuran, assistant professor of journalism, will present a magic show at the Second Semester Club meeting in 304 Old Main, 7:15 p.m. Tuesday.

Non-credit Music Course To Open, Fishburn States

Prof. Hummel Fishburn announces that a non-credit course in Music Appreciation will be given each Tuesday at 4:20 p.m. in Room 201 Carnegie Hall starting Tuesday.

The course will cover all the major composers of the twentieth century, starting with Debussy. Emphasis will be placed on the best known works of each composer. A short biography will be given on each composer.

William C. Reutti, a student of the College and an ex-serviceman, will teach the course. Anyone interested should leave his name at the Music office, 216 Carnegie Hall, and come to the first class Tuesday.

Exam Dateline Extended

All applications for the Army Specialized Training Reserve Program should be made by 5 p.m. April 11, instead of April 7, as was formerly announced. Men interested in taking the examinations should contact Prof. Robert E. Galbraith, 243 Sparks.

Steam Turbine Inventor Visits Campus to Confer

Charles G. Curtis, who invented the steam turbine 30 years ago, is at the College conferring with Paul H. Schweitzer, professor in engineering research.

Curtis, 85 years old, is best known by his invention of the Curtis steam turbine which General Electric began to build in 1897. He also filed the first patent in the United States covering the gas turbine in 1895 and another one covering a rotary blower in 1902.

Lately Curtis has directed his attention toward designing a better diesel engine for locomotives.

Blue Grass
FOR
Easter

There are thousands of ways to say "Happy Easter" but none that better express the spirit of this thrilling new season . . . the fragrance of Nature all awake, alive . . . the feminine charm of a new frock . . . a new hat . . . a new outlook on life. Nothing better says for you "HAPPY EASTER!"
