### Jaded Censors Pepped Up By Sergeant's Artistry

Providing a little variety for jaded censors seems to be the hobby of Sgt. James T. Fickes, ex-Penn Stater, now serving in China. Along with names and addresses, the envelopes he sends home are covered with painted scenes of rickshaws, pagodas, lakes, and ricefields.

Fickes, an architecture student, left school in June, 1942, at the end of his junior year. He was a member of Apha Nu, physics honorary, and chairman of several dances. Also to his credit is the design of the Riding Club stables, and another permanent mark in the form of the kneeling blond farmer boy in the mural in Old Main, for which he posed.

First landing in India, he later was sent to China to set up recreation centers and is now teaching Chinese officers the use of American Lend-Lease armaments.

Not only his family but his friends, who beg him to paint on the envelopes of their letters, are gradually building up a small art collection. In his paintings he has found a novel and interesting way of keeping the folks back home posted.
