Don't Worry Servicemen Needlessly, Says Prof

Enlist the help of soldier boy correspondents with problems ona College psychologist advised 1tcomp | today.

"The wisest plan," Dr. Clifford R. Adams, associate professor of education and psychology, said, 'is to relate your troubles only after they have been solved.

"It won't do any harm," he added, "to tell them the house burned down, provided you have already found new quarters."

Differentiating between solved and unsolved problems, Dr. Adams warned homecoming will be an awful shock if a serviceman is led to believe civilian life is 100 per cent perfect.

A serviceman, he a d v i s ed, should be spared any problem which would serve only to worry him and with which he is helpless to cope. For example, he urged wives not to seek divorces while their husbands are in service.

"Several months after the husband's return will be time enough te discuss divorce," the psychologist concluded.

U. S. Steel Shows Photos

An exhibit of 60 photographs, depicting "Steel at War," will be displayed in the Mineral Industries art gallery from Monday, May 21 to Monday, June 4. The exhibit will be loaned by

the United States Steel Corporation. Gallery hours are from 8 to 12 a.m. and from 1:30 to 5 p.m

The College is one of the institutions of the nation invited to share in a new research program to encourage studies and experiments in magnesium metal and its alloys, according to an announcement issued yesterday by the Reconstruction Finance Corporation in Washington.

Allies Exchange Data

Approximately 30 different foreign delegations have visited the College since the war's start to inspect new technological and educational developments.

Mineral Industries Dinner To Honor Dr. McFarland

DAVID F. McFARLAND

Cabinel—

(Continued from page one) were re-established. They are to be filled each semester by candidates from the senior class who will be elected by the entire student body. They will perform the duties of All-College Cabinet chairman and Interclass Finance Board chairman.

The five groups that were given ex-officio representation on Cabinet are Student Tribunal, Judicial Committee, Women's Stu-dent Government Association, Women's Recreation Association, and Penn State Christian Association. Tribunal and WSGA formerly had voting positions on Cabinet.

In the future All-College and semester elections will be held on the second Tuesday and Wednesday of every semester, except in the case of first semester freshmen who will have elections on the sixth Wednesday of the semester.

All meetings of Cabinet were made compulsory for the voting members. Unexcused absences will bind the representatives over to the judicial bodies for punishment.

The Penn State Players was added to the Dramatics and Forensics Board in one of the smaller changes in the constitution.

Hicks Visits Sigma Chi

Dr. William D. Hicks, national grand tribune of Sigma Chi, visited the chapter this week. Leon Erdman, Charles Duke, A/S James Jones, Harry McMillan, and A/S Donald Riebe are newly initiated members of the fraternity.

Recently pledged were A/S James Cutter, Thorief Iolster, A/S William McKim, John Sidersky, and Jack Strange.

other

Dr. David F. McFarland, retiring head of the department of metallurgy, will be the guest of honor at the seventh annual Mineral Industries Banquet at the State College Hotel tomorrow.

Speaker at the banquet will be George Starr Rose, '23, secretary of the American Iron and Steel Institute in New York City. His ad-dress, "Metallurgy Looks For-ward," will deal with productive, technical, and economic phases of the industry. He will compare the tools with which metallurgy had to work 20 years ago with the con-ditions today, and will describe the magnitude of the steel industry and its prospects for new plants

and new products. Dr. McFarland, who will be hon-ored at the dinner, has been at the College since 1920. He is a member of the American Chemical Society and the American Society for Metals, and a fellow of the American Association for the Advancement of Science. He also belongs to Sigma Gamma Epsilon, Sigma Xi, Phi Lambda Upsilon, Alpha Tau Omega, and Alpha Chi Sigma.

The dinner is sponsored by the local chapters of the American Society for Metals and the Mineral Industries Society. Frank Marold, a student at the College, is chairman of the committee. Harry B. Northrup, president of the Penn State chapter, American Society for Metals, will be master of ceremonies.

Players-

(Continued from page cne) sential. But there is none obtainable at present. The Players construction crew is now at work on ersatz bamboo and the current story is that any time of day or night you happen into the Players' loft you are accosted by a paintbegrimed apparition with a south-ern accent who inquires of you whether the thing she is waving in front of your face is a reasonable facsimile of the Malay reed.

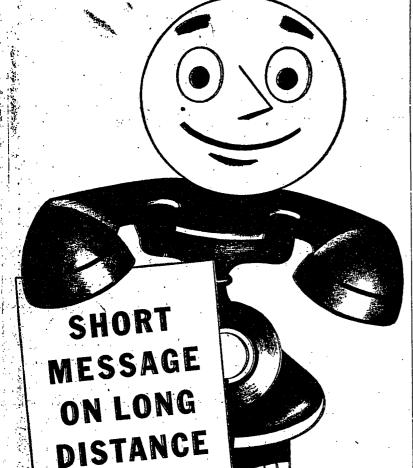

Then too, Tommy (Jerry Sitkin) has provided his share of the problems. Because of his obesity the cot upon which he has been hospitalized during rehearsal is sagging around its middle, and a new one will have to be provided.

These are a few things that are going on behind the curtains of "The Hasty Heart" a week before production. Yet, if the student cast does as well by its script as the Broadway cast of the same show is doing at present, Players will have scored another success.

Agriculturalist Lectures

Have a Coca-Cola

T. Swann Harding, information specialist of the U.S. Dept. of Agriculture, will give an illus-trated lecture on "Agricultural trated lecture on "Agricultural Scientists and Their Achieve-ments" in 109 Agriculture Building, at 4:20 p.m. Monday.

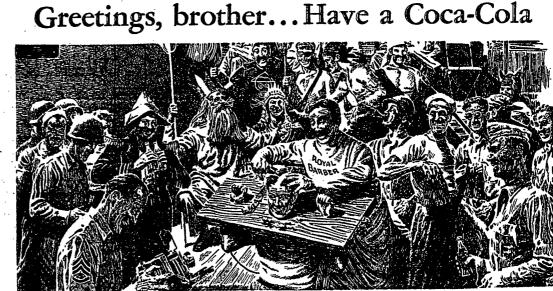

Barracks 17 Barracks 28 5

There are many more Long Distance calls than before the war and more are in a hurry. But service keeps on being good for most people, most of the time.

Some lines, however, are carrying an extra heavy load and sometimes all lights are lit on a switchboard. Then the operator will ask your help by saying - "Please limit your call to 5 minutes."

THE BELL TELEPHONE COMPAN

... or initiating a new subject of Neptune Everybody enjoys a moment of good-natured friendliness. Such a moment begins at the words Have a Coke. That's why a pause for ice-cold Coca-Cola is greeted with a smile in so many places, on the seas and overseas, just as it is in your home. It's a happy symbol among people who understand the pleasant ways of friendship.
