Flag Contest Stays Open

The All-College Flag Contest, scheduled to close yesterday, has been extended to December 4. This announcement was made today by William Maginn, chairman of the Flag committee.

This extension of the deadline was made to give contestants who were not here for the summer semester more time to work on their designs, stated Maginn. A \$25 Victory Bond will be the winner's immediate reward, but according to Maginn, time will make the designer one of the College's most honored alumni.

Entry regulations remain unchanged as follows:

- 1-Designs for the flag are to be drawn to scale in the approximate proportions of the American flag.
- 2-Two designs must be submitted by each contestant. The second design is to be the same as the first except for reversed color scheme.
- 3-The contest is open only to regular undergraduate students.
- 4-The flag must look the same from either side.
- 5-Entries must be handed in at Student Union by 5 p. m. December 4.
- 6-Each student may make an unlimited number of entries.

Ex-Censor Describes Humorous Experiences

"Reading Other People's Letters" was the subject discussed by Edwin H. Miller, professor of English composition, on the program, "Purple Quill Presents," heard over Station WMAJ on Wednesday night.

During his 40-month service in the U. S. Army, Professor Miller acted as censoring officer for the men under his command, and from this experience wrote the humorous essay from which his talk was taken.

Contrary to civilian, and even GI belief, Professor Miller stated, a censor's job is not one which he takes pleasure in doing. After a short time the reading of soldiers' mail becomes very boring and all letters begin to sound the same. The average officer, Professor Miller emphasized, hated the task of being a third party to a man's private affairs.

"I have drawn two conclusions after reading other people's letters, that there is nothing new under the sun, and that love will find a way," confided the English composition Professor.

Placement Leetch Advises

To determine what job and what company or industry holds his interest is tremendously important to the college student seeking a position, according to George N. P. Leetch, director of the College Placement Service.

The student should feel free to discuss his interests in post-college employment with his department head and advisor, Mr. Leetch explained. Besides an interest in a type of profession, he said, an investigation of the job's potentialities and companies offering such employment should be made.

Counseling literature on various professions is available at the College Library, while the College Placement Service has information on many well-known companies' background and organization. The Placement Service is also available to students desiring suggestions about types of employment.
