LOST—One brown moccasin in Skellar recently—Finder please return to Collegian Office.

LOST—Picked up by mistake at Cathaum Theatre Monday night pigskin glove for left hand. Call 2389.

'State College Prettiest Spot I've Seen,' Says British Bride

"I really think this is the prettiest place I've ever seen, and I've seen Devonshire and Cornwall, two of the most beautiful sections of England," declared Mrs. Edna Myers, British wife of Robert Myers of State College, who arrived in this country on the Queen Mary Sunday.

"Your houses are all so beautiful and each one different," she added. "In England, all the houses are built alike, something like your factory homes. And oh, your wonderful kitchens! We had no refrigerators or ice boxes, no washing machines of any kind, and our stoves would seem old fashioned to you!"

Mrs. Myers comes from Norwich, a town on the eastern coast of England, in the country where Dickens' "David Copperfield" took place. She said the countryside there is much like ours with the fields separated by fences. She expected to find fields of grain and corn like in the prairie land of the west, she added.

Norwich was bombed terribly, as was all of England, and Mrs. Myers has many pictures to show the devastation. She was a telephone operator in the City Hall, and then served in the WAAF's for three years.

"The food situation in England is very bad—worse now than during the war. You have to stand in a queue for everything for hours at a time. When you do get to the counter, they hand you a frozen rabbit without a head, tail or feet, so you just take a chance that it isn't a cat.

"The people even stand in queues for horse meat. Horse meat has yellow fat and other meat has white fat, and so all the fat is removed to disguise it. Of course, you know what it is, since it is very stringy and tough.

"We only had meat on Sunday, and then very little. We got a small joint, and then the leftovers and the bone were used the rest of the week. We only had one hot meal a day. In the evening we would have a snack, such as crackers and cheese, or bread and jam with tea. Of course we have our "Fish and Chips" shops, like your french fries and hot dog stands. We could get a meal there once in awhile." She didn't have any ice cream in six years.

Mrs. Myers thought the Statue of Liberty was breath-taking. As she walked down the streets of New York, she exclaimed, "Oh, you really have bobby-soxers! Look, there's Eddie Bracken!" She thought bobby-soxers were only in the movies, as no one wears sox in England.

Clothing is so expensive and requires so many points that most girls don't have any stockings, and those that do, have cotton ones.

Mrs. Myers says the English people really appreciate the many kind things the American people

did for them during the war. When some English children say The Lord's Prayer, they say, "Our Father, who art in America," she reported.

Robert Myers met his wife in New York on Sunday and they arrived in State College Tuesday night. They were married in England two years ago. Since that time Mrs. Myers has been trying to come to America. They will make their home with Mr. Myers' mother, Mrs. Elizabeth Myers at 229 W. Beaver avenue.

College Student Breaks Ankle While Wrestling

James D. Ball, 24, a student at the College, was treated at the dispensary of the Centre County Hospital yesterday for a fracture of his left ankle received while wrestling. A cast was applied and he was discharged. Ball lives at the Sigma Chi fraternity.

Anthony Rackoski, 58, Thomas street, Bellefonte, received a fracture to his jaw when he was struck by a bar while working for the National Gypsum Company. He was admitted to the Centre County Hospital at noon yesterday.

Housing Expert To Speak at College

Dr. John P. Dean, regional economist of the Federal Public Housing Authority, will speak to the combined home management and housing classes of the College in Room 110, Home Economics building, at 4:20 p. m. tomorrow.

Dr. Dean is one of the authors of the book, "Book of Houses," which gives ideas and plans for houses ranging in price from \$5,000 to \$10,000. The public is invited to be present.

Test Diggings

are being made by the department of grounds and buildings in the Jordan Fertility Plot near Grange Dormitory. According to George W. Ebert, supervisor, these tests will determine the type of foundation which will be needed under the dormitory to be built there at some future date.

A survey by the Institute of Local Government disclosed that 125 of 169 Pennsylvania municipalities rendering fire protection beyond their corporate limits make no charge for this service. The radius of operation is limited, however, by 112 of the 125 municipalities.

SALLY'S

Taxi-Driving Mother Enters Home Ec Dept.; Wants To Be Dietician

Driving taxi is just a means to an end for Mrs. Pansy Parker, 32-year-old mother now enrolled as a freshman at the College.

For long years, Mrs. Parker nursed an ambition to be a dietician but an early marriage, and then motherhood, eliminated high school and college.

But she persisted and early in 1941, encouraged by her minister and the school principal, she entered high school as a second-year student. Meanwhile she was working as cook in a campus fraternity.

Last June she was graduated from high school, and once again she thought in terms of a college degree. In the meantime she had changed jobs, and now she is driving taxi—and finding most people "kind and helpful."

"It's fun to be a cabbie," she insists. "I meet all kinds of people, and they talk about all kinds of things. Some are selfish, of course, but most of them are kind, and helpful."

Mrs. Parker now fits college into her job, attending classes in English composition and nutrition when she's not doing her taxi stint.

Then, at night, when she rejoins her children—Richard, 12, and Alan, 9—the whole family observes a strict study hour. Talking is forbidden and Mrs. Parker's sister, Mary Ann Sprankle, 16, and a high school student, is there to give advice and encouragement.

"Yes, I've been discouraged," she says, "but I soon get over that, and concentrate on the work at hand. I think I can get an education, and I'm old enough to know I can't do it without putting forth every effort."

Iota Sigma Pi To Hear Oakwood On Petroleum

"The Origins of Petroleum" will be the topic of a lecture by Dr. Thomas S. Oakwood, assistant professor of organic chemistry, at the meeting of Iota Sigma Pi, women's chemistry honorary, in 119 New Physics at 8 p. m. Monday.

Dr. Oakwood will illustrate his lecture with slides. This is the only opportunity for students to hear this particular lecture by Dr. Oakwood as he is leaving at the beginning of March to give this same lecture throughout southwestern United States.

This will be an open meeting and everyone interested is invited to attend.

Canterbury Club Slates Student Minstrel Show

The Canterbury Club, student group of St. Andrew's Episcopal Church, will present a minstrel show in the parish house at 8 p. m. tonight. Admission is 50 cents with all proceeds slated for the church Reconstruction and Advance Fund.

As guest soloist, Virgil Neilly will sing a special blues number. Another attraction will be "Swinging on a Star" featuring Rev. John N. Peabody, show interlocutor. Edward West and Robert Jones assume the roles of end men, Rastus and Bones.

Refreshments will be sold at intermission and dancing will follow the final curtain.

Mail Swamps Registrar; Biggest Flood On Record

All records were broken as 9435 pieces of mail flooded the Registrar's office during the month of January. The highest previous number ever received during the month of January was 1827 in 1945.

The busy mailman delivered an average of 326 pieces of mail a day during the 29 working days of January. His heavy pack varied from 240 pieces on the 19th to a staggering total of 553 pieces on January 7.

Key Clique

will nominate candidates for class officers for the Spring semester at a meeting in 121 Sparks, 7 p.m. Sunday. All candidates must be named at this time as nominations will be closed at the meeting. Everyone is invited to attend.
