to 30 other agency photographers who do most of their work for the famous picture magazine. Grant just finished an assignment in Arizona last week, and when he returned to New York he was sent to State College for a picture story on "How To Fish."

Photographs Fly Tying
His instructions were to photograph the "right" and "wrong" of fly tying and fly casting, with the College expert, George Harvey, as the subject. Harvey's students on the campus were pictured in the classroom, and on the streams. Harvey's 4-year-old daughter, Susie, also was photographed tying a fly.

Grant thought well of the story as it unfolded, and expressed the belief that it had "a good chance" of making the magazine. He pointed out, however, that only one of five assignments ever find their way into the magazine, although he personally has been doing a little better than that. He said that his assignments had "landed" in the magazine pretty consistently during the last six months.

Life's interest in Harvey's personal fishing prowess and his success in teaching fly tying and fly casting, had been aroused by a conversation Dr. Carl P. Schott, dean of the School of Physical Education and Athletics, had with a member of the Life sports staff while in New York for a recent convention. After an exchange of information, Life editors assigned Grant to the job and gave him full instructions on what they wanted.

Takes Over 100 Pictures
He took more than 100 pictures during his two-day stay, but said that most longer stories averaged from 200 to 300 "shots." Life, he added, was unpredictable and there was no way of knowing what would happen to a picture story until after it had been examined by the magazine's editors. He explained that a few weeks ago, he "shot" some 300 pictures on what he considered an important assignment but that only about six were used by the magazine.

The coeds enrolled in the class around which Grant wove his story were Marilyn Globisch, Joan and Nancy Harrington, Virginia Higgins, Mary Lawther, Ruth Twitchell, and Jacqueline Zivic. The boys in the class were David Arnold, Richard Croft, Richard Ely, Robert Krear, John Lee, Richard McCord, Richard Miller, Charles Ridenour, and Herbert Wahl.

"Sometimes I catch the real life Raymond talking like the stage Raymond and Corliss, claims she finds herself talking back to her profs 'a la Corliss.' Except for being completely distracted and having two and three meetings at the same time, I can't say 'Kiss and Tell' has invaded my personal life," Peggy concluded. "Kiss and Tell" will be given May 10 and 11. Tickets will go on sale at Student Union Monday.
