

Record Enrollment Lists
10,397 Students at College

The largest student body in the history of the College—10,397 in all—is studying on campus and at 22 branch centers in the State, President Ralph Dorn Hetzel announced today.

The total is unofficial and has not yet been broken down by schools. Some students are still registering and will continue to do so until the deadline, Thursday at 5 p. m.

The unofficial enrollment count reveals that 6,876 students are attending classes on campus; 1,691, at the four Undergraduate Centers; 1,695, at the co-operating colleges throughout the State; and 135 at the Pennsylvania State Forest School at Mont Alto.

In addition, four emergency credit centers, to be in operation by the end of the month, will add 205 more students—80 at State College which opens today and 45 at Bellefonte; 40 at Philipsburg, which opens next Monday; and 40 at Lewistown, opening October 16.

Other emergency credit centers are being organized at Somerset, Sayre, Oil City and Shamokin.

Previous to this semester, the highest student enrollment at the College, including undergraduate centers, was recorded in 1942-3, when 7,192 attended classes, 6829 of them at the main campus.

The College enrolled more than 2800 freshmen, none of whom are on campus. More than a thousand first-year students are attending classes at the undergraduate centers, 1695 at the co-operating colleges, and 135 at Mont Alto.

Martin said he had been told the C-I-O marine engineers would take the same stand. A strike by the two unions has halted all shipping on American coasts.

College Grants Voters Recess

Students at the College have been granted a recess for Election Day, November 5, in order that they may return to their homes and vote, it was announced today.

Arthur R. Warnock, dean of men, said this opportunity had been extended because of the large number of students on campus qualified to vote. He estimated the total at more than 4000. Members of AVC at the College requested this action during the Summer Session.

He pointed out that this probably is the first time in Penn State history that classes will have been suspended for Election Day. He added, however, that in other years, students eligible to vote, desiring to return to their homes for that purpose, had been granted permission to do so.

The Constitution of Pennsylvania states that "for the purpose of voting, no person shall be deemed to have gained a residence by reason of his presence while a student of any institution of learning," thereby preventing students from registering and voting in the borough of State College.
