

## Invitation

Tonight the Common Sense Club officially begins activities on the Penn State Campus. We invite you, the students of Penn State, whether veteran or non-veteran, to attend.

We invite you to attend because we know that you have more than a transitory interest in Penn State. We offer you our organization as the instrument through which you can implement your ideas for a better Penn State, a better America, and a better World.

It is only through exercising your freedom of action that our America can live on and grow healthier. Our organization offers you the opportunity of exercising that freedom.

Leo Troy,  
Executive Chairman  
Common Sense Club

Ed. Note: The Common Sense Club meets tonight at 7:30 o'clock in 121 Sparks. Two March of Time films will be shown: "Americans All" and "Russia at War."

## Russia

A recent Gallup Poll shows that the average U.S. voter considers foreign policy, specifically relations with Russia, as the most important problem facing the country today. The Baruch Report, Henry Wallace's differences with Secretary of State Byrnes, the charges of Communistic domination of many American labor unions — all of these directly or indirectly revolve around the main problem, that of our relations with USSR.

It is difficult for U.S. citizens to know exactly what course we should pursue toward Russia. Despite numerous efforts by our State Department and press associations, American reporters have not been given access to travel freely throughout Russia and report in the same free manner as they are accustomed to in the U. S. Occasionally we do receive a reliable report, such as brought back by the New York Times man, Brooks Atkinson, but this type of information reaches us only spasmodically.

Despite the lack of authentic, on-the-spot reports, a sizable section of the U.S. press daily bombards us with colored feature and news stories on the USSR. Unable to gain access to the mysteries lying behind Russia's "Iron Curtain" of press restrictions, many American newspapers nevertheless, have hazarded a guess as to what goes on within the walls of the Kremlin and on the basis of those guesses are attempting to direct an uninformed public opinion along a certain course.

Daily we read of tension with the Soviet, about a joint Anglo-American bloc, and that some "experts" are predicting war with Russia by 1948. As a result, American sentiments are being lined up to support a foreign policy that is more pro-British and anti-Russian than an American policy of aiding right and fighting wrong. We are right in opposing the unwanted Russians in Iran and Turkey, but are wrong in supporting the unwanted British in Greece.

We do not profess to know the answer to the Russian problem, but we do feel that the follow-

## Letters

TO THE EDITOR: I thought maybe I might explain a little concerning your reference in the October 8 Collegian to our little check folder called PSCA Roundup. You referred to it as suggesting that we might be signing up members for the Collegian staff. I think you misunderstood the intent, for actually the publicity committee here is asking for people who have some journalistic ability to join its committee and help write stories concerning our own projects. The stories are then handed to the Collegian representative who may or may not change them.

It would be impossible for Lucy Seifing (Collegian representative) to cover the entire program since there are so many commissions, each with a certain number of projects. Therefore a central system of collection is necessary, and those who are on the inside of each commission have a better grasp on what should be said in a news story. Each commission and committee is to have its own publicity person who automatically becomes a member of the PSCA publicity committee headed by Lois Reese and Mike Horen.

We would recommend few of our writers for the Collegian staff, but if there ever is a shining example that we think you could use who isn't already on your staff, we may send his or her name along to you.

I am sure the statement in our folder was misleading, and for this our apologies.

Jim Smith, PSCA

## Letters

The Collegian will print all letters to the Editor that it receives but there are certain restrictions placed on letters to the editor. We will print them without revealing the writer's name, if so requested, but we will not print them if they come into our offices without a signature.

To be more specific, we are holding a letter from an alleged member of the Pollock Circle Dormitories who has signed his name, "The Circle Crier." We do not know who this person is and will not print the letter until he notifies us of his real name, so that we will be protected in printing the letter.

Editorials and features in The Collegian reflect the opinions of the writer. They make no claim to represent student or University opinion. All unsigned editorials are by the editor.

ing facts should be pointed out to aid us in trying to understand the recent actions of the USSR. As Senator Claude Pepper emphasized when he visited the campus, "things look different on the other side of the world." From within, we are not aware of our strength, but from without, you can not help but notice our power. It is we who have the atomic bomb. It is we who have bases stretching across the Atlantic to Germany and across the Pacific to China. We boast proudly that our navy will sail anywhere it damn pleases, but what would we say if the Russian Navy steamed into the Gulf of Mexico?

As background for attempting to understand our former ally in arms, it should be recalled that Russia supported the collective security program of the League of Nations during the thirties while we did not. It was Russia who fought for collective action against Italy in the Ethiopian crisis and not Britain. And it should not be forgotten that Russia is still suspicious of those interests in England and the U.S. that were contented to see Hitler brought to power in the hope that Germany would be a bulwark against Communism.

In this age of the unwanted miracle, it is of utmost importance that U.S. steer the world away from power diplomacy and vigorously support moral principles which still send a ray of hope to the oppressed throughout the world and for which American democracy has always been noted.

## Thespians Name Saling, Mellott

Jack Saling and "Pete" Mellott have been appointed Thespian advertising and personnel managers replacing George Washko and John Holmes, Thespians announced.

Dance rehearsals are taking place in Schwab auditorium, 7 p. m., every Monday, Tuesday, Wednesday and Thursday nights. Tryouts for speaking parts have been concluded. Leading roles will be announced next week.

Production manager Bud Mellott requests that students, not connected with the Thespian show, refrain from coming into the auditorium during rehearsals.

## Newman Club Lays Plans For Fall Reception

Plans were completed by the executive board of the Newman Club at its first meeting October 3 for the annual fall reception. It will be held Sunday, October 13 at the Phi Kappa House, 338 E. Fairmount avenue, from 3 to 5 p.m. All new Catholic students as well as former Newmanites are invited to attend. The purpose of this annual affair is to introduce new Catholic students to the activities of the Newman Club and to acquaint these students with one another. The reception will be sponsored by the hostesses, members of Our Lady of Victory Parish, under the chairmanship of Mrs. James H. Coogan.
