

New Engineer Goes on Sale

Edited by Lynne Robinson, the October, 1946 issue of The Penn State Engineer is now on sale at the Corner and Student Union. Sale price per copy is 16 cents.

Articles included in the Engineer's first issue of the Fall semester are "Melamine-Bonded Fiberglass-Reinforcement in Plastics," by Edward M. Lucas; "Bomb Damage in a German City," by Leroy C. Meyers of the department of geography; "What About Tomorrow," by John Householder; and "Production of D.D.T.," by John P. McCarthy.

Climaxing the magazine's features is an article by Harry P. Hammond, dean of the School of Engineering, entitled "We Begin a New Year."

Nittany-Independent

(Continued from page one) this cooperation:

a. Meetings of the entire student body every two months at which time a general Cabinet report would be given; class presidents would report for their classes and chairmen of important committees, which had been appointed the preceding two months would report on their work.

b. Formation of a student-faculty Council composed as follows:

1. All-College President.
2. Representative of Dean of Men.
3. Representative of the Dean of Women.
4. I.F.C. President.
5. I.S.C. President.
6. Representative of President Hetzel's office.
7. President of W.S.G.A.
8. Panhellenic Council.

The council would meet monthly and handle only those matters which are closely related to both administration and students.

Purpose: The purpose of this Council would be to discuss affairs which pertain to both students and the school administration and would alleviate the ill-will which is being maintained by having too few administration men on All-College Cabinet and too few students on the Student Welfare Committee.

Furthermore we realize that many problems which arise concerning the students do so because a lack of understanding upon the part of the administration — the above named Council would help to correct this.

The purpose of the student body meetings would be to report to the students the state of student government and also to accept suggestions from the entire student body concerning policies which Cabinet should follow.

3. We pledge ourselves to actively support a Student Union, campaigning by the following methods:

- a. Allotment of needed funds

Campus-Key

(Continued from page one)

Lodge wings (money still needed, \$5640) and promote the actual completion of these wings.
c. Get needed campus facilities such as enclosed bulletin boards and accessible sound and light equipment for rallies and demonstrations.

3. Make Penn State a more enjoyable place to attend. How?

a. Promote recreation on Sunday other than the impossible Boro Sunday movies so far vainly sought.

b. Foster coeducational swimming at the Glennland pool.

c. Impress upon the College authorities the urgent need for seasonal facilities such as the artificial ice pond and adequate tennis court management, while insuring transportation to Whipple's Dam and the Ski Lodge.

d. Create and instill a unified Penn State spirit by integrating the independent, town, and fraternity students through low-cost All-College activities.

Men and women of Penn State are now challenged to accept the opportunity to bring to office candidates who earnestly pledge themselves to make realities those policies which they feel the greatest majority of students want. Your VOTE for the CAMPUS-KEY party is your chance to make this possible.

for the Student Union Committee.
b. Continuation of this committee as an active force in soliciting support for a building by, if necessary, appointing new men to replace those whose keen interest has been diminished.

4. We encourage the sponsoring by All-College Cabinet of sending representatives of our student body to the other colleges at which Penn State freshmen are enrolled. We realize that, after all, those students belong to Penn State as well as we do and are eager to become more closely associated with this Campus by:

1. The organization of the above representatives.
2. Extending invitations to a certain number of Penn State students at these different schools to come to this campus for a weekend.

Purpose: The purpose of the above plank is to enable these freshmen to become definitely associated with this campus. The representatives could explain to the freshmen various aspects of life at Penn State such as—student government, campus organizations (Daily Collegian, Honor Societies, fraternities, and other social organizations) and problems of our College Community.

5. One delegate from Pollock Circle to be chosen by that group to represent them on All-College Cabinet.

The Nittany-Independent Party releases the above platform with the sincere promise that, if elected, we will carry out each and every plank.

Blue Band

(Continued from page one)

Myers, and W. Wilson, piccolos. Frank Hess, E flat clarinet; Leonard Dileanis, alto clarinet; and Ellis Hall, bass clarinets.

Abram Bosler, S. Ciccone, Sidney Givotovsky, K. W. Hagerty, Michael Horen, James Kooser, Edward Lauter, Alfred Levine, W. P. Loomis, Karl Mahaffey, F. F. Meninghaus, Myron Moskovitz, D. L. Mowry, Ernest Rotili, John Schoening, R. Spiker, D. Stitely, and W. W. Wolfersberger, B flat clarinets.
