

Greek Coeds List Pledges

Delta Zeta, known locally as Lampades, is at the moment leading in the number of girls pledged in this fall's informal bidding. This group has taken six, with Gamma Phi Beta and Phi Mu tying for second place with four each, out of a total of 20.

This list, however is incomplete because some bids will not be replied to until after the Thanksgiving vacation. Some sororities will not be bidding at all because their quotas are filled. Sororities and their pledges are as follows:

Delta Zeta: Phyllis Harkins, Emily Jean Holmes, Eleanor Kelly, Nancy Pardee, Jacquelyn Wengert, and Lorraine Yotka.

Gamma Phi Beta: Shirlianne Bush, Phyllis James, Martha Ann Koons, and Marian Memory.

Kappa Alpha Theta: Carolyn Olmstead.

Kappa Kappa Gamma: Janet Long.

Phi Mu: Barbara Hall, Virginia Parkinson, Elizabeth Peck, and Helen Edith Webb.

Phi Sigma Sigma: Sonia Podolnick and Patricia Porter.

Sigma Delta Tau: Miriam Frankel and Gladys Singer.

Further additions to this list will be made following the Thanksgiving vacation.

USCSC Offers Dietician Jobs

Information relative to examinations for student dieticians in War Department, Veterans Administration, and Public Health hospitals throughout the country has been released by the U.S. Civil Service Commission.

Maximum salary for the 12-month training period is \$1,470, which includes allowances for subsistence, quarters, and overtime.

Students successfully completing the training in Veterans Administration and U.S. Public Health Service hospitals will be eligible for appointment as staff dietician, \$2,644 a year. Those successfully completing the training in War Department hospitals will be eligible for a commission in the Army as Medical Department dieticians at a base pay of \$2,160 a year plus allowances for quarters and subsistence.

Further information about requirements, advancement, and application may be obtained from any first or second-class post office or from the U.S. Civil Service Commission, Washington 25, D. C.

Faculty Limelight

Dr. Kent Forster, assistant professor of history at the College, will discuss "Secretary of State Byrnes and Henry Wallace—Their Views and Differences" at 6 p. m. today when the November meeting of the State College Business and Professional Women's Club will be held.

Guests at the event, which will be held at the Centre Hills Country Club, will be Mrs. D. W. Davis, president of the American Association of University Women, and members of the International Study Group of that organization.

Dr. Harry A. Sorensen, who resigned from the faculty at the College on September 30, 1945, has been reappointed associate professor of mechanical engineering, effective December 1, President Ralph Dorn Heltzel announced recently.

Dr. Sorensen first joined the faculty at the College in 1937 and left last year to accept a position as research engineer with the Pratt & Whitney Aircraft Division, United Aircraft Corp., East Hartford, Conn., where he was working on gas turbine investigations.

In 1930, he received a B.S. degree from Worcester Polytechnic Institute. He received his M.S. degree in 1937 and Ph.D. in 1945, both from the University of Michigan.

Dr. Sorensen is a member of the American Society of Mechanical Engineers, the American Society of Electrical Engineers, the American Association of University Professors, and Society of the Sigma Xi and Tau Beta Pi. He is the author of "Common Problems in Radiation" published in 1941 by Southern Power and Industry.

Dr. Viktor Lowenfeld, professor of art education at the College, has been invited by the department of education of the ex-

ceptional, Teachers' College, Columbia University, to speak on "Art for the Handicapped" tomorrow.

Dr. R. Adams Dutcher, head of the department of agricultural and biological chemistry at the College, attended the recent annual meeting of the Grocery Manufacturers of America in New York, N. Y.

For the past 11 years, Dr. Dutcher has served on the awards committee of the association. This year's award was presented to Dr. Frank G. Boudreau in recognition of his many and important contributions to public health as chairman of the food and nutrition board of the National Research Council during the war.

Dr. R. Adams Dutcher will attend a Protein Symposium to be held at Rutgers University on Friday and Saturday.

Dr. Russell C. Miller, professor of agricultural and biological chemistry at the College, will participate in meetings of the American Society of Animal Production to be held in Chicago on Friday and Saturday.

Fifteen Join Honor Society

Ten seniors and five juniors were pledged to Omicron Nu, home economics honor society, Barbara A. Struck, president, announced today.

Seniors are Tamazine M. Crum, Jean E. Farley, Phyllis M. Freeman, Ruth B. Friedman, Sarah A. Knapp, Priscilla J. B. Ostermayer, Adeline Shull, Margaret R. Sprecher, Caroline Wilbur, and Margaret B. Wiley.

Juniors are Betty J. Brown, Carolyn I. Currier, Norma E. Lash, Frances M. McKnight, and Lois Ruth Wolfe.

Group Honors Old Members

Alpha Lambda Delta, freshmen women's honorary, is planning a tea in honor of last year's members December 8 in Frances Atherton Hall. Evelyn Armstrong, chairman for the event, has appointed sub-committees.

Mary Alice Hodgson, decorations; Ann Lantz, chairman, and Harriet Schlee, invitations; Shirley Babb, chairman, Lois Heyd, Wilma Brehm, and Jane Doner, refreshments; Phyllis Mowler, chairman, and Eleanor Kelly, clean-up.

Evelyn Armstrong, Mary Ruth Austray, Claire Lee, Mary Kay Rice, Sylvia Schenfeld, and Betty Williams will be hostesses.

Library Exhibit Features Latin-American Prints Of Contemporary Art

Latin American prints, comprising a collection of 75 examples of contemporary graphic art from 18 Central and South American countries, will be exhibited in the College Library until December 2. In its revelation of the character and human aspects of these countries, the collection provides a cross section of native life in the "Good Neighbor" republics.

Etchings, lithographs, and woodcuts are the three predominant means of expression characterizing the exhibit. Some aquatints and mezzotints are also included, as well as examples of the copper plate medium, mostly from Brazil and Argentina.

Critics, in appraising these art works, have seen "A great feeling of spontaneity, vigor, and freshness." Any lack in draftsmanship and polish, it is said, is balanced by an inherent feeling for movement and a sort of primitive sincerity. The artists' choice of subject matter reflects an interest in their native environment; in the activities of their fellow man.

Public showing of the prints, which have been viewed in more than 50 museums and educational institutions in the United States and Canada, is daily from 7:50 a. m. to 10 p. m.; Saturdays from 7:50 a. m. to 5 p. m.; and Sundays from 2 to 10 p. m.

KKG's Adopt Dutch Girl, 8

Kappa Kappa Gamma sorority has adopted an eight-year-old Dutch girl in Holland, Wilhelmina C. F. Mas, through the Foster Parents' Plan for War Children. It was announced by Mrs. Edna Blue, executive chairman of the Plan.

Wilhelmina and her little brother, Cornelis, were born in Batavia, Dutch East Indies, where their parents had moved from Holland. Their father, a successful planter, joined the army when war came. The Japanese took him with other prisoners and he died of hard labor and malnutrition, according to the child's case history.

In the meantime Mrs. Mas and the two children were confined to a concentration camp where the inadequate diet brought about malnutrition and a highly nervous condition in Wilhelmina's case. After the liberation of the Island, Mrs. Mas learned of her husband's death. This, together with what she and the children had endured, brought her to a state of near collapse, the history continues.

Upon their return to Holland, they were penniless, had no furniture to start a home, and had only the clothing they wore. During the war years their relatives in Holland had been bombed-out and could not help, it was pointed out.

Wilhelmina is very nappy under the Plan, according to Miss Blue. A special vitamin-enriched diet has already added some weight and new color to her cheeks. A typical blond, she has a quick, alert mind and enjoys her school, the report points out. The sorority will pay \$15 per month for her support.

Ag. Research Reports To Be Given in Omaha

Four technical papers reviewing agricultural research will be presented at the annual convention of the American Society of Agronomists in Omaha, Neb., this week by members of the College faculty and experiment station.

M. T. Henderson, of the agronomy staff will report on "Inheritance of Leaf Rust Resistance in Barley." Charles D. Jeffries of the soil technology staff, will present a paper on "Developments in Methods for Mineralogical Analysis of Soils" to the general meeting, and another on "Rapid Method for Removal of Free Iron Oxides in Soil Prior to Petrographic Analysis" to the soil technology section. H. B. Musser, a member of the turf committee of the American Society, will report on "Seed Production in Red Fescue."

Polio Group Offers Funds For Study

Fellowships for graduate study in health education, leading to a master's degree in public health, are being offered for the academic year 1947-1948 to qualified persons by the U. S. Public Health Service, through funds made available by the National Foundation for Infantile Paralysis.

One year's graduate study is offered at an accredited school of public health. The training consists of eight or nine months of academic training and three months of supervised field experience. The curriculum includes work in sociology and general education as well as in the various branches of public health.

All tuition and travel expenses plus a monthly stipend of \$100 for the entire period of academic and field training will be paid. The subsistence allowance for veterans granted under the G.I. Bill of Rights will be supplemented to bring their total stipend to \$100 a month.

All men and women between the ages of 22 and 40 who meet the particular entrance requirements of the school of their choice are eligible. In addition to a bachelor's degree from a recognized college or university, candidates may be required to have taken courses in the biological sciences, sociology and education.

Write for application forms to the Surgeon General, U. S. Public Health Service, Washington 5, D. C.

Windcrest Plans Mixed Swimming Party

Windcrest will hold a "Mr. and Mrs." swimming party in the Glennland pool tonight. Carl F. Stokes, chairman of the social and recreation committee, is in charge of the party, to which Windcrest residents will be admitted free.
