WASHINGTON — These coal miners stayed off their jobs despite the fact that a federal court has found John L. Lewis and the union that he heads guilty of contempt of court. The sentence—which depends completely on the discretion of the court—will be passed today. However, both Lewis and the United Mine Workers have the right to appeal the sentence to a higher court.

RICHMOND, VA. — The Commonwealth of Virginia has taken an important independent step in the coal dispute. Governor Tuck has created a state council of defense. This agency was given extraordinary powers—they include power to buy coal from any mines not in possession of the government and, also, to lease and operate any such mines.

WASHINGTON — Parcel post, railroad freight, and passenger service all were made the subject of new and strict regulations. A nation-wide embargo has been clamped on all freight and express except vital needs. The parcel post service has been closed to all shipments weighing more than five pounds. And another 25 per cent reduction was ordered in the already restricted passenger service on coal-burning lines.

PITTSBURGH — American industry—at least that important part that depends on coal—was described yesterday as operating merely on a day-to-day basis. Unemployment forecasts remained gloomy.

—Yesterday the total indirectly made-idle by the soft coal stoppage rose above one-hundred-and-sixty thousand, as 11-and-one-half thousand more workers saw their names added to the list of the unemployed.

And, of course, there were four-hundred-thousand idle workers in the soft coal mines.

Camera Club Reorganizes

In an effort to crystallize the interest of student photographers, the Nittany Camera Club extends an open invitation to all students to join in the special program in 5 Forestry at 8 o'clock Tuesday night.

For many years the Penn State Camera Club, a student organization, was quite active on campus, but became a war casualty. Two years ago the Nittany Camera Club was formed of faculty, staff and townpeople.

In extending the invitation, Dr. Henry W. Thurston, club president, explained, "The program will include a general exchange of photographic supplies, with chance to buy, sell, swap or auction anything used in photography." He said the list already includes cameras of various sizes and models, tripods, trays, lamps, developing tanks, and all kinds of accessories.

E. J. Seiferle and N. A. Norton are co-chairmen for the program and they urged any students with photo equipment to sell, as well as those seeking any darkroom supplies or other needs of amateur photographers to be on hand Tuesday.

In addition to the bazaar a brief meeting will be held for the benefit of those interested in re-joining the student camera club, said Dr. Thurston.
