

Tessie Helps Costume Girls

Ever try to make 90 costumes? That's the size of the order that the Thespian costume crew will fill before "No Kick Coming" opens December 13.

Betty Schmitt, head of the costume committee, designed the 25 different outfits to be worn by the cast. Then she set out for Philadelphia to buy material. "We're not using any old costumes from past shows. All the materials are new," she said.

Sewing Machines Whirr

Every afternoon and evening until show-time, the 22 girls of the crew are hard at work sewing and fitting in the Thespian room in the basement of Schwab Auditorium. There is a steady whirr from their sewing machines.

Among these hard workers is a very important person—Tessie, who has become a Thespian tradition. Tessie is a professional dressmaker from town. She cuts all the material, without a pattern, from the sketches and she helps with the sewing. "We couldn't get along without her," the girls say.

Came to Help Move

This is the 14th Thespian production that Tessie has worked on. "I've been with them since '38," she said. "I came to State College to help somebody move, and the next thing I knew I was sewing." Tessie has also done costume work for New York shows.

Members of the costume committee are Marylou Ackison, Arloa Betts, Dorothy Cauffman, Joan Cushman, Florence Elderton, Elsie Federoff, Patricia Gibson, Francine Gittenmacher, Ruth Hatfield, Clara Horn, Doris Kerrick, Jane Lee, Marylou Markley, Edna My-

Men's Debate Departs For New York; State Three Matches on Trip

Men's Varsity Debate Squad left State College today for New York City on the first phase of its Eastern trip.

Debates are slated tomorrow and Friday in the New York City area, with the teams entraining Saturday to West Point for a match with the Military Academy.

The William Sloan House will feature an inter-team cross-examination debate tomorrow between the College's affirmative and negative orators. Samuel Neely and Edward Joyner will defend the affirmative of the question: "Resolved, That the United States should make further efforts to conciliate Russia." Malcolm Goldstein and Fred Kecker will oppose the resolution.

Friday, Brooklyn College will be encountered in the third intercollegiate debate of this season. "Resolved, That labor should be given a direct share in the management of industry," is the resolution, with the affirmative squad composed of Neely and Joyner, and the negative including Goldstein and Kecker.

Only the negative team will debate the Military Academy on Saturday. The labor-management question will be discussed with this to be the first decision match of the season. Goldstein and Kecker will oppose the Cadets.

ers, Esther Pebley, Caroline Rice, Frances Rice, Harriet Schlee, Beatrice Silverstone, Janet Taylor, Betty Jane Whitney, Lois Windenbergh.

Brewster, Chastaine, Aston To Head Panel On Aspects of A-Bomb

"What Atomic Energy Portends—Politically, Scientifically, and Militarily" will be the subject of a panel discussion tonight at the AVC meeting in Room 121 Sparks at 7:30. The meeting is open to the public.

The political aspects of atomic energy will be presented by Dr. R. W. Brewster, of the political science department, Dr. John G. Aston, from the department of chemistry, will speak about the scientific applications of power derived from atoms, while the military viewpoint will be discussed by Col. Ben-Hur Chastaine, head of the ROTC program at the College.

Also on the agenda for tonight's meeting is the election of five members at large to serve on the executive council of the local AVC.

Engineer Awards Prizes In Monthly Contest

Penn State Engineer will again award prizes for the best material submitted by students for publication each month.

This policy was inaugurated in 1943. Contestants are eligible for one fifteen dollar or one ten dollar prize each month. Any College student is eligible, and may submit more than one story a month, although he may not receive more than one prize.

Entries may be mailed to the Penn State Engineer, room 416, Old Main, or left at the Student Union desk addressed to the Engineer. The contestant should put his full name and address on the title page.

Articles will be judged by the faculty advisory committee of the Engineer.
