Architectural Drawings On Display in Library

Fifty sketches of European landmarks by William S. Osborne, head of the department of architecture, will be shown at the College Library throughout the month of December.

Mr. Osborne made his sketching tour in the summer of 1938, and visited England, Scotland, Germany, Denmark, Sweden, Norway, Finland, Czecho-Slovakia and France. His drawings make a nice balance between detail and structural mass, and the use of color give them a charming liveliness. The handling of difficult studies in perspective is particularly admirable.

defense which asked that a verdict of first or second degree murder or a not guilty decision be rendered.

The acquittal completed three days of testimony and cross-examination by the prosecution and defense, with Galloway alone taking the witness stand for six hours on Tuesday and Wednesday.

Galloway's parents and friends testified in his behalf, with members of the State College police department the major witnesses for the prosecution.

Controversy

Main controversy resulted from two sworn statements and a dictaphone record of Galloway's remarks on the day of the shooting.

Galloway claimed his statements varied because of the mental agony imposed upon him by the constant questioning of Chief Juba and his staff. He said they kept "hammering, hammering, hammering; trying to get me to confess something."

The defendant also testified that he signed the sworn statements after the police constantly told him he had done the shooting on an impulse.

In regards to his signing of the written statements, Galloway remarked, "As Mr. Juba said, the written statement was for my benefit."

Shot Fired

The statements varied as one said Galloway fired the shot from the rear of the trailer and the other said the shooting took place from the center of the trailer.

The prosecution pointed out the variations in testimonies, for the first sworn statement said Galloway fired the shot from the rear of the trailer, and police testified they found the partition doors together which would prevent any shot from the rear.

However, defense witness Ashbey's testimony revealed he had seen the alleyway clear when he entered the trailer following the shot, but closed the partition to confine the pet kittens that were running around.

The prosecution was unable to produce any evidence of a quarrel between the newly-weds.

Attorney Musser W. Gettig, in his final statement for the defendant, asked that a verdict of "not guilty" be returned. Gettig said although the tragedy was negligence on Galloway's part, there was no malice involved in the shooting to warrant a charge of murder.

"There was negligence but no malice, and negligence is not murder," said Gettig. The defense asked that the maximum penalty be levied if malice in the shooting was evident, but that an acquittal be returned otherwise. The defense rested at 10 o'clock yesterday morning.

District Attorney Edward L. Willard opened his summary speech by quoting a commandment, "Thou Shalt Not Kill." He attempted to prove that the shooting was intentional. He concluded his remarks at 10:40 a.m. by asking the jury to return a verdict of first degree murder.

Verdict Unanimous

Judge Walker cautioned the 10 men and 2 woman jury to consider every bit of evidence. He rehearsed the trial testimony before concluding his charge with, "the verdict must be unanimous."

The Common Pleas Judge then read the points presented by the
