# Up from the Ranks

These are presidents of operating telephone companies of the Bell System. They all started at the bottom of the ladder... Nine years ago the Bell System first published an advertisement like this, except that there are now thirteen new faces in the pictures. These new presidents also started at the bottom.

The Bell System aims to keep the opportunity for advancement open to all.

One of its traditions is that its executives come up from the ranks. That has been true of the business for many years and nowhere is it better illustrated than in the careers of the men who now serve as presidents of Bell Telephone Companies.

As a group, they have put in 611 years of telephone service, an average of 36 years each.
