Transfer Vets Report To VA

Veterans who plan to transfer from one school to another must first receive the approval of the Veterans Administration in order to continue to receive monthly subsistence benefits, J. Paul Enke, chief, Vocational Rehabilitation and Training division, Wilkes-Barre VA region, stated today.

Monthly allowances cannot be paid to a veteran who moves from one institution to another without prior clearance by the training officer in charge of his initially approved course and institution.

Veterans planning such a change should report immediately to the Campus office so that arrangements can be made to have a supplementary letter of eligibility.

All veterans who are interrupting their course at the end of this semester, and plan to re-enter Penn State at a future date are urged to report this to the Campus office between January 20 and 24.

Veterans who have their checks sent to an address other than within the jurisdiction of the Wilkes-Barre Regional office, which includes the Penn State area, are asked to change this to a local address. Otherwise, the office having jurisdiction over the address he is using may request transfer of his folder.

When a folder is transferred out to another regional office, a subsistence interruption is automatic. Regional offices are authorized to request a veteran's folder on the strength of the address.

When a veteran has his folder in the Wilkes Barre regional office, he should not make inquiries regarding his case at any other regional office. If he does, the other office will immediately request a transfer of his case, and the subsistence will automatically be interrupted.
