

Summer Jobs

American Youth Hostel work projects in Europe offer one of the most interesting ways to spend the summer. If you're the pioneering type and have \$500 to \$600 to spend, you can make a valuable contribution toward reconstructing Europe.

One month you'll work on a single project side by side with Europeans. The second month will be spent on a regular hostel trip. Hostels will go to France, Belgium, Germany, Holland, Russia and the United Kingdom. For information apply to the American Youth Hostels, Inc., Northfield, Mass.

Photography

If you'd rather stay closer to home, there are jobs in your own community. Photography, for instance, if you have been bitten by the shutter-bug, bears looking

into. Commercial photo-finishers may be able to use you as a dark-room technician.

Playground assistants teach arts and crafts, supervise games, break up fights, and prevent children from standing up on swings. You can expect to make about \$5 a day and work six days a week. It's hard work but you will be contributing to other people's fun. Inquire of your city park department and board of education.

A public library gives an opportunity to learn a great deal about people and even something about books. You will learn how to make full use of a library and how libraries do operate. If you desire, you can probably work on children's summer programs at your library.

(Ed. Note: This is the second of a series of articles on jobs for women.)
